

10.5" CUFF NITRILE EXAM GLOVES

REF PM6-330X

ACCELERATOR FREE | TEXTURED FINGERTIPS | POWDER-FREE | BLACK

Vital™

ABOUT THE GLOVE

The PRIMED Vital glove is your first line of defense with the strength to tackle your toughest jobs. Strong, durable material protects users from bacteria, viruses, chemicals and chemo drugs. At 10.5" in length, the Vital glove is equipped to protect workers from harmful substances they may encounter on the job. Low-dermatitis technology helps reduce the risk of developing sensitivities or allergies and prevents aggravation of existing skin conditions. The Vital glove is tested to FDA standards for protection against fentanyl.

PROTECTION STANDARDS

Exceeds the current ASTM D6319: Standard Specification for Nitrile Examination Gloves for Medical Application.

Tested against chemotherapy drugs to the current ASTM D6978: Standard Practice for Assessment of Resistance of Medical Gloves to Permeation by Chemotherapy Drugs.
(List of tested chemotherapy drugs available upon request.)

Tested to ASTM F1671 for Viral Penetration.

FEATURES & BENEFITS

GLARE REDUCING FINISH

Black colour helps minimize reflection.

FLEXIBLE AND COMFORTABLE FIT

Conforms with the user's hand to facilitate dexterity.

ENHANCED FINGERTIP TEXTURING

Provides reliable grip in wet and dry conditions.

LOW DERMA - ACCELERATOR FREE NITRILE
