Conversation Starters – Ask your Investment Professional:

*“Given my financial situation, should I choose a brokerage service? Why or why not?”*

*“How will you choose investments to recommend to me?”*

*“What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?”*

#### What fees will I pay?

If investing in private placements, the compensation is paid to CIM by the issuer, and no additional fees are added to your investment. For more information, you should refer to your offering memorandum for the private placement you invest in. We charge a transaction-based fee (also referred to as a commission) every time you buy or sell an investment in your brokerage account. The amount you pay as a transaction-based fee varies according to the particular investment and amount invested. We collect these fees each time a transaction takes place, which in turn, creates an incentive for us to encourage you to trade more often. If applicable to your brokerage account, you may also be charged other fees in addition to brokerage commissions, including fees for custody, execution, redemption fees, wire transfer fees, account closing fees, transaction costs and other service provider fees. **You will pay fees and incur costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.**

Additional Information can be found in our “Regulation Best Interest Disclosure Brochure”, or visit our website at: <https://www.cimsecurities.com/>.

Conversation Starters – Ask your Investment Professional:

*“Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?”*

What are your legal obligations to me when providing recommendations? How else does your firm make money and what conflicts of interest do you have?”

**When we provide you with a recommendation, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts between your interests. You should understand and ask us about these conflicts because they can affect the recommendations we provide you. Here are some examples to help you understand what this means.**

- Investment recommendations are limited to only products for which CIM has contracts or selling agreements with. Comparable products at another firm may have lower costs or fees
- Your Investment Professional may offer a product to you that may cost more and, therefore, you will be charged more
- More transactions in your brokerage account equates to more commissions generated and paid by you

Conversation Starters – Ask your Investment Professional:

*“How might your conflicts of interest affect me, and how will you address them?”*

Additional Information can be found in our “Regulation Best Interest Disclosure Brochure”.
