"My husband is an active duty Green Beret and we showed up to the event a little nervous, but open-minded to the concept. The location was absolutely gorgeous and everyone made us feel comfortable right from parking.... what we took away from this weekend is hard to put into words. The vulnerability and openness of the people who participated in the weekend were paramount to its success. The most impactful moment was driving home, my husband turned to me and said "I feel like each one of those guys was describing me. I might as well reach out, maybe I'm not fine."

Only those that live with these protectors can understand what a powerful statement that is. This weekend also focused on us, the families. For the first time in years we feel like we are not alone. This weekend has changed my marriage and my life. Thank you for giving us the ability to look ahead and feel hope."

K. Cartier.
