

## Frontend Web Developer (fulltime)

For more than 10 years, 3Q has developed and operated a robust and high-performance SaaS platform for video management and streaming.

We are specialists in streaming technologies and high availability. Using our in-house platform, we broadcast live and on-demand content for leading content providers worldwide. With full GDPR compliance, innovative features, multiple system integrations, an intuitive UI and customer support based in Berlin, we are a trusted partner for our customers.

### What we want to achieve with you

- Expansion and continuous improvement of our video management platform
- Help us build a new, modern and accessible UI
- Implementation of exciting, market-leading features

### What you offer

- A computer science degree, professional training, or equivalent professional experience
- You write clean, maintainable code and documentation
- You're at home with standards-compliant web development (HTML5, CSS3, Typescript)
- A good understanding of the software development process
- At least 2 years of experience with one of the major javascript frameworks (React, Vue, Angular)
- A desire to learn new tools and new technologies
- Great teamwork and communication skills
- The ability to effectively communicate in English. German language skills are highly desirable
- Experience with video streaming, video or audio players and content management systems is desirable

### What we offer

- A friendly and highly motivated team
- A high degree of autonomy and personal responsibility
- Flexible working times and a mix of home office and in-office work in Berlin or Munich

### Start date

ASAP
