Dr. Amy Elizabeth Crary

Amy Elizabeth Crary, DMD was born and raised in Stuart, Florida. She graduated from Martin County High School and the University of Florida College of Dentistry. She continues her cosmetic and neuromuscular dental education at the world renowned Las Vegas Institute for Advanced Dental Studies annually.

Dr. Crary enjoys taking care of many area families' routine dental needs. However, she has the training, experience and artistic talent to perform cosmetic dentistry (including extreme smile makeovers), when a client needs or wants such procedures. She has many satisfied smile makeover patients and proudly displays a before and after photo album of them in her lobby. Often, these *Smile Makeovers* can be completed in just two visits! Truly, stained teeth can be whitened, crooked teeth straightened, broken and chipped teeth repaired and missing teeth replaced. What used to take years is now done in just a few visits: with amazing quality.

Another service that Dr. Crary's clients love is the ability to get Botox® or Restylane® treatments in her office. Dr. Crary recently added this service to compliment her client smiles. Even the men have discovered the benefits of Botox® here. It certainly is a treat to leave with a glowing smile and fewer wrinkles!

Dr. Crary and her team love what they do and it shows in their work and the way they treat their customers; many say they would never go anywhere else. Apparently the doctor is very caring and has a gentle touch.

As a native of Stuart, Dr. Crary knows the importance of good friendly service and treating people right. She realizes that many of her clients are neighbors or are friends of neighbors. At Aesthetic Dentistry of Stuart, Dr. Crary and her team know...life gets better with each smile.
