

PAPER TUBE Snowman

Does your child want to build a snowman, but not be outside in the cold? Here's a warm, indoor alternative that's just as fun! You and your child can **PLAY** as you build your custom snowman!

Materials Needed:

- Paper towel tubes
- Scissors
- Glue
- Markers
- Construction paper

Optional Materials:

- White paper or
- White paint and paintbrush

Make a Paper Tube Snowman:

1. Cut a paper towel tube in half. You can use a toilet paper tube if you prefer.
2. Cut out some white paper and glue it around the paper roll or paint the paper roll white. (Optional)
3. Cut a strip of construction paper to use for the scarf and an orange triangle to use for the nose.
4. Wrap the paper strip around the paper roll and glue together to make it a scarf.
5. Use the markers to draw eyes, a mouth, and buttons.
6. Glue on the carrot nose!
