LIAT Terms & Conditions

The following terms & conditions apply to all LIAT, LLC products.

1. ACCEPTANCE, MODIFICATION, ASSIGNMENT: By placing this order for furniture, material or other products (sometimes collectively referred to as "Goods"), Customer agrees to these Terms and Conditions which shall prevail over inconsistent provisions in any other form or document of Customer. No change or modification shall be applicable unless set forth in writing and signed by Company. Neither this order nor any interest therein shall be assigned by Customer except with the prior written consent of Company.

2. PRICING: LIAT, LLC assumes no responsibility for the quantities or the interpretation of competitive product. Pricing is based on standard LIAT furniture including standard construction, materials, finishes and sizes. Unit prices shall prevail. Pricing subject to change without notice Prices are those in effect at the time of order entry.

3. PAYMENT: Customer agrees to pay deposit or down payment as required by Company. Customer agrees to pay to Company the amount indicated on the Invoice, 1% 15 days, net 30 days from date of Invoice (U.S. Funds only), for Goods ordered. ***INTEREST WILL BE CHARGED AFTER 30 DAYS FROM THE DATE OF INVOICE AT THE RATE OF ONE AND A HALF PERCENT (1.5%) PER MONTH.*** International sales will require additional payment arrangements. No Goods shall be sold on consignment or conditional sales basis. Payment for the Goods delivered hereunder shall constitute acceptance thereof.

4. DELIVERY: The specific terms of delivery are as stated on the sales order acknowledgment. Goods which are delivered in advance of schedule are delivered at the risk of Customer. The Company is not liable for delays or failure to ship due to fire, strike, act of God, the public enemy or other causes beyond the control of the Company. With respect to LIAT, LLC, all shipments which are F.O.B. Factory or Delivered, LIAT, LLC reserves the right to select the appropriate carrier. Special requests including, but not limited to, inside delivery, installation, and call before delivery are not included in the price. Any charges arising from failure to meet shipment, rerouting while in transit, or carrier storage charges are the responsibility of the Customer. LIAT reserves the right to add a freight surcharge dependent on current market conditions.

***LIAT product is shipped knocked down. Assembly in the field is required.**

5. CARE AND MAINTENANCE: To maintain your LIAT product for years of use, please follow these care and maintenance guidelines:

Wood Care and Maintenance: Use a damp, lint free cotton cloth for general dusting. Work with the grain of the wood.

Laminate Tops: Laminates may be cleaned using a damp cloth and mild soap.

Marmoleum Tops: Marmoleum can be maintained by dry or wet maintenance systems. For detailed product specifications or maintenance information, contact Forbo Industries Support Services at 1-800-842-7839 or visit their website www.forbo-industries.com.

Metal Finishes: Mix a solution of liquid soap and warm water. Saturate a clean cloth with this mixture. Wipe down metal then dry completely.

Acrylic Products: Use only products specifically recommended for cleaning acrylic, or a mild solution of dish detergent and warm water. Do ***NOT*** use any cleaner containing ammonia to clean your acrylic products. Do ***NOT*** use a dry cloth or your hand to clean the acrylic - this will rub the dirt and dust into the acrylic and can scratch the surface.

Fabric Care: The ability to be cleaned will vary based on the type of fabric. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spill should be wiped up immediately with a cloth. if upholstery has been protected with Scotchgard or Zepel, the coating should be re-applied yearly. Vinyl textiles can be cleaned with warm soapy water and then wiped down with a warm damp cloth.

6. CLAIMS. All shipments are delivered to the carrier in good condition and Company's liability ceases after acceptance by carrier. If shipment arrives short or damaged, the Customer must file a claim immediately with the carrier. In the event of concealed damage, notify carrier and request an immediate inspection. Keep all cartons and packing material. Failure to file claim within 15 days after receipt of Goods constitutes acceptance and a waiver of any such claims

7. DISCLAIMER OF WARRANTIES: The express warranties below are the Company's sole warranties of its Goods, there are no understandings, agreements, representations, or warranties, express or implied (including any regarding the merchantability or fitness for a particular purpose), not specified herein, respecting the Goods. Except for those obligations of the Company identified in these Terms and Conditions, all risks related to the quality and performance of the Goods and responsibility for repair or service costs rests solely on the Customer. Company reserves the right to limit the applicable warranty to the Goods depending upon the division or catalogue through which said Goods were sold. Some states do not allow limitations on implied warranties, limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to all Customers. This warranty gives the Customer specific legal rights, and each Customer may also have other rights which vary from state to state.

8. EXPRESS WARRANTIES: *The express warranties of the Company are as follows:*

LIAT, LLC

LIAT, LLC WARRANTS TO THE ORIGINAL PURCHASER THAT EACH CASEGOOD WILL BE FREE FROM DEFECTS IN WORKMANSHIP GIVEN NORMAL USE FOR A PERIOD OF TWENTY (20) YEARS OF SINGLE SHIFT SERVICE. LIAT WARRANTS THEIR SEATING PRODUCTS TO THE ORIGNAL PURCHASER THAT EACH PIECE OF FURNITURE WILL BE FREE FROM DEFECTS GIVEN NORMAL USE FOR FIVE (5) YEARS. LIAT, LLC WILL, AT ITS OPTION, REPAIR OR REPLACE ANY DEFECTIVE FURNITURE WITHIN THE TERMS OF THE WARRANTY. THIS WARRANTY DOES NOT APPLY TO DAMAGE RESULTING FROM ACCIDENT, ALTERATION, OR MISUSE. ALL LIAT ELECTRICAL COMPONENTS AND ACCESSORIES ARE WARRANTED TO THE EXTENT OF THE ORGINAL MANUFACTURER.

Goods other than furniture are sold by Company to Customer without warranty.

9. ATTORNEYS' FEES: Customer shall be responsible for all expenses and costs in connection with the enforcement by Company of these Terms and Conditions and the costs of collection (including the fees of any collection agencies to whom the Customer's account may be referred), plus reasonable attorneys' fees (which attorneys' fees shall not be less than 25% of the amount due, unless a lower amount is specified by applicable law).

10. CANCELLATION: All cancellations must be made in writing. Administrative and/or labor charges may be incurred by the Customer depending upon the production stage of the order. Orders specifying special finish cannot be cancelled once finishing has begun. Cancellations cannot be accepted once final production has begun.

11. ORDER CHANGES: All changes to an order must be made in writing and are subject to Company's ability to conform. Administrative and/or labor charges may be incurred by the Customer depending upon the production stage of the order. Once final production has begun, no changes can be accepted.

12. REMEDIES: The remedies herein reserved shall be cumulative, and additional to any other or further remedies provided in law or equity. No waiver of a breach of any provision of these Terms and Conditions shall constitute waiver

of any other breach or of such provision.

13. INSOLVENCY: Company may forthwith cancel this order in the event of the happening of any of the following or any other comparable event: insolvency of the Customer, the filing of a voluntary petition in bankruptcy, the filing of any involuntary petition to have Customer declared bankrupt provided it is not vacated within thirty (30) days from the date of filing, the appointment of a receiver or trustee for Customer provided such appointment is not vacated within thirty (30) days from the date of such appointment, or the execution by Customer of an assignment for the benefit of creditors.

14. LIMITATION OF LIABILITY: The Company shall not under any circumstances be liable to the Customer, owner of the Goods or any third party for special, indirect, incidental, or consequential damages, including, without limitation, loss of profits or revenues, loss or damage to other property or equipment, cost of capital or of purchased or replacement goods, or expense, delay or inconvenience caused by or arising from the purchase, sale, use, repair or inability to use the Goods or by any performance or non-performance under, or breach of, these Terms and Conditions. The Company's sole liability for any defective Goods shall be its repair or its replacement pursuant to the Express Warranties set forth above, or if amended, as applicable at the time of manufacture or repair of the Goods. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to all Customers. Any action resulting from any breach on the part of Company as to the Goods or services delivered hereunder must be commenced within one year after the cause of action has occurred.

15. RETURNS AND ALLOWANCES: Reasonable touch-up and deluxing is the dealer's responsibility. The Company will not make allowances for trip or delivery charges, but will only make allowance for actual work performed to correct manufacturing defects. Allowances may be authorized only by a Company officer. It is the responsibility of the field sales representatives to inspect any defective merchandise and make suggestions and recommendations as to the proper disposition. Field personnel cannot obligate or bind the Company by definite agreement, without final authorization by a Company officer. Company will not accept automatic charge backs which do not have prior authorization. All defects must be called to the Company's attention upon arrival at the Customer's "Ship To" destination. To initiate any type of claim or request for parts, it is imperative to have the model number or fabric number, which may be located on the tag attached to the frame of the unit. Authorization for return to the Company for any reason must be issued by the Company via a Return Goods Authorization. Any authorized returns not due to damage or defect will be assessed a 30% restocking charge and all return freight charges must be prepaid. Company will not issue credit allowances for any repairs without Company's prior consent. Under no circumstances shall the Company accept COD (Cash on Delivery) returns, and any such shipment will be refused.

16. SECURITY AGREEMENT: The Company may require and Customer shall grant a security interest in Goods sold pursuant to any credit the Company may extend to the Customer.

17. GOVERNING LAW: All disputes between the parties, whether or not arising out of these Terms and Conditions, will be governed by the laws of the State of North Carolina. Customer agrees to submit to the jurisdiction of and agrees all lawsuits relating to any disputes between the Customer and the Company will be brought only in a state court located in Iredell County, North Carolina or the United States District Court for the Southern District of North Carolina. THE CUSTOMER HEREBY WAIVES THE RIGHT TO A TRIAL BY JURY IN ANY ACTION, PROCEEDING, CLAIM, OR COUNTERCLAIM WHETHER IN CONTRACT OR TORT, AT LAW OR IN EQUITY, ARISING OUT OF OR RELATING IN ANY WAY TO THESE TERMS AND CONDITIONS AND ALL OTHER DISPUTES BETWEEN THE PARTIES.

18. MITIGATION: If the Company repossesses the Goods prior to payment by the Customer of all amounts due hereunder, the Company may sell the Goods, AS IS, WHERE IS, free and clear of all rights of the Customer at either public or private sale, and apply the net proceeds (after deducting expenses of repossession and sale) to the obligation of Customer hereunder. The Customer shall remain liable for any deficiency. THE COMPANY MAY DISPOSE OF THE GOODS IN ANY COMMERCIALLY REASONABLE PLACE AND MANNER AND THE CUSTOMER WAIVES ANY NOTICE OF TIME, PLACE AND MANNER OF SALE.

19. INTEGRATION: This order for Goods, including these Terms and Conditions, along with any Credit Application, Invoice, Statement, Dealer Contract, Acknowledgment, Bill of Lading (and any exhibits, addenda or amendments thereto) of which this order may be a part, constitutes the sole and complete agreement between the Company and the Customer with respect to the purchase of the Goods.

20. DIMENSIONS/SPECIFICATIONS/FINISHES: All dimensions are approximate and may vary due to the upholstery technique of each craftsman. If exact dimensions are required, it is necessary for *the Customer to state such* specifications with the order. Detailed specification sheets are available for each series of Goods, and Customer should consult the Company's Customer Service Department for these specification sheets. Company reserves the right to make changes in dimensions, style, or specifications if Company believes these changes will improve the Goods' quality or appearance. Company reserves the right to substitute hardwoods due to availability at production. Due to the natural characteristics of wood, environmental effects, and material upgrades, the Company cannot guarantee exact finish matches on existing Goods previously ordered from Company. If an exact match to Customer's existing Goods are required, it must be specified so that the proper procedures can be followed to ensure an acceptable finish. Company will accept no liability for the finish if this procedure is not followed. Company reserves the right to make changes in a finish formula if Company believes the change will improve the quality or appearance of Company's Goods.

21. ACKNOWLEDGEMENT: All orders will be acknowledged promptly, showing how the order was entered, the approximate shipping time and other pertinent information. It is the Customer's obligation to examine this acknowledgment carefully and notify Company immediately of any discrepancies. Every reasonable effort is made to ship as acknowledged, however, the acknowledged ship date is approximate. Company will generally ship within five (5) working days of the acknowledged ship date. If a firm ship date is necessary, Customer must inform Company at time of order and Company will make all reasonable efforts to meet each Customer's request. Acknowledged shipping dates are contingent upon the force majeure conditions contained in these Terms and Conditions.

22. COMPANY'S PERFORMANCE OF ITS OBLIGATIONS: The production and delivery of the Goods to the extent delayed or hindered or prevented from the performance by reason of natural disasters, acts of God, strikes, lockouts, labor troubles, inability to procure materials, casualties, failure of power, restrictive governmental laws or regulations, riots, insurrection, acts of terrorism, war or other reason of a like nature not the fault of the Company shall excuse for the period of the delay the Company's performance and the period for the performance shall be extended for a period equivalent to the period of such delay.

23. ANSI / BIFMA PERFORMANCE STANDARDS: All LIAT products meet and/or exceed applicable ANSI and BIFMA performance standards.

24. ENVIRONMENTAL HUMIDITY STATEMENT: Wood acclimates to its environment and will expand and contract with changes in the environment. It is the customers responsibility to ensure that the environment where any LIAT product is kept remains at a 45% - 55% humidity level. Any damage to the furniture resulting from improper humidity levels will void the warranty.

General Ordering Information Checklist

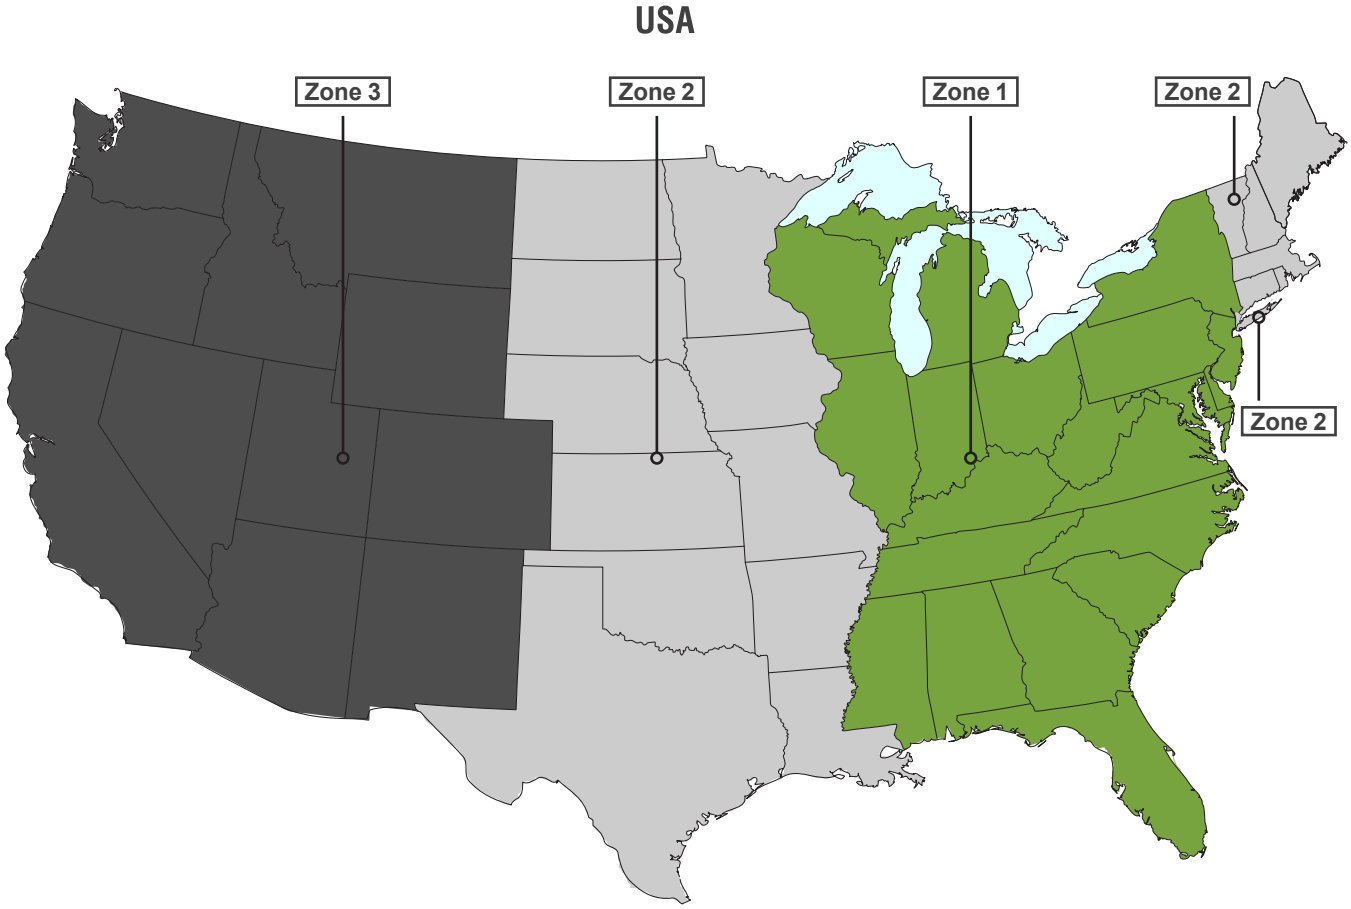
Freight Zones

Use the following guide to **determine the delivered pricing** for your LIAT furniture product by **selecting your zone** from the map and reviewing the price changes for each zone. To **determine your list price**, add your prices from your selected furniture and then **add the shipping cost based on your designated zone**.



Zone 1	No extra cost
Zone 2	Add **7%** to the list price
Zone 3	Add **15%** to the list price

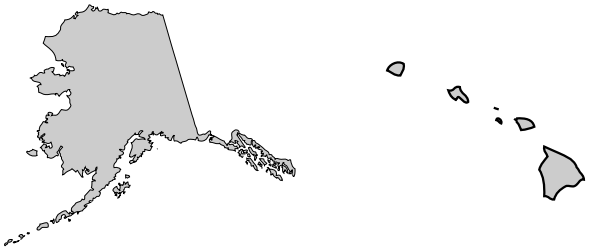
Zone 1 orders less than $20,000 list will have a freight minimum fee of up to **$2,000** list.

Zone 2 orders less than $20,000 list will have a freight minimum fee of up to **$2,000** list, plus **7%** of list

Zone 3 orders less than $20,000 list will have a freight minimum fee of up to **$2,000** list, plus **15%** of list

Hawaii, Alaska, and International

Note. This system does not apply to our international customers or those living in Alaska and Hawaii, **freight must be quoted separately for these orders.**



***Most LIAT product is shipped knocked down (KD). Assembly in the field is required.**

***LIAT reserves the right to add a freight surcharge dependent on current market conditions.**

Modification Charges

Use the following guide to **determine the delivered pricing** for your LIAT furniture product by **selecting your zone** from the map and reviewing the price changes for each zone. To **determine your list price**, add your prices from your selected furniture and then **add the shipping cost based on your designated zone**.

Size Changes

To order a special size product, use the price of the next largest size. If the special size is larger than what is shown, contact project management.

Catalog Number Changes

To order a modified product, add an "X" as a prefix to the catalog number. The "X" will signify that there has been a modification to ensure the product is engineered and manufactured correctly. LIAT may change the overall catalog number slightly to create a unique identifier as the quote/order goes through our in-house system.

Description Changes

When ordering a modified product, make sure to include all information pertaining to the modification in the description of the quote request / purchase order.

Approval Drawings

LIAT is always happy to send drawings for approval when requested by the customer. When modifications are made to product, LIAT requires approval drawings to be signed off prior to releasing an order to be manufactured.

LIAT Project Managers are here to assist you with any questions you may have.

Level 1	Up to $250 list	0-2 hours of engineering time	No significant manufacturing changes
Level 2	Up to $500 list	2-4 hours of engineering time	No significant manufacturing changes
Level 3	Up to $750 list	0-4 hours of engineering time	Slight manufacturing changes
Level 4	Up to $1,000 list	Significant engineering time	Slight manufacturing changes
Level 5	$1,000+ list	Significant engineering time	Significant manufacturing changes

LIAT

Use this checklist to be sure you have all of the necessary information to place your order.

☐ **Catalog Number**
Use our build guides to create your catalog number.

☐ **Laminate Selection**
Standard Wilsonart or Formica. Please specify manufacturer, color, finish and model number.

☐ **PVC Edge Band**
See 8 for a complete list of standard LIAT PVC Edge Band options.

☐ **Metal Color Selection**
See 10 for a complete list of standard LIAT Metal Color options.

☐ **Accessories**

Tops

Table tops are constructed of 1-1/8” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all exposed sides a 3mm PVC band. Tables over 108” long will be constructed of a two piece top supported by three bases.

Flat Base

The bases are constructed of two 11 gauge vertical aluminum extruded columns bolted together by means of a 1/2” thick particle board bridge. Each column has inset grooves to allow panels to cross the span in a flat plane on either side with a cord drop provided in the middle of the base. Each column has an 8” x 8” leg plate that attaches to the top with (8) #14 x 3/4” self-tapping PPH screws.

V-Shaped Base

The bases are constructed of two 11 gauge vertical aluminum extruded columns bolted together by means of a 1/2” thick particle board bridge. Each column has inset grooves to allow panels to cross the span in a curved plane on either side with a cord drop provided in the middle of the base. Each column has an 8” x 8” leg plate that attaches to the top with (8) #14 x 3/4” self-tapping PPH screws.

Plastic Laminate Panels

The plastic laminate panel option is constructed of two vertical grade pieces of High Pressure Laminate fit between the vertical columns of the base.

Plain Metal Panels

The plain metal panel option is constructed of two plain 14 gauge powder coated steel panels fit between the vertical columns of the base.

Perforated Metal Panels

The perforated metal panel option is constructed of two perforated 14 gauge powder coated steel panels fit between the vertical columns of the base.

Adjustable Leveling Glides

3/8-16 x 3/4” long shank adjustable leveling glides come standard with all bases.

Electrical / Power

The standard built-in power upgrade options include cutouts for a grommet as well as M2X and E2X power units that provide various options for power outlets, data ports and USB charging. Grommets are included in the price of the table, but power units must be ordered separately. See the accessories for standard offerings, or contact project management to customize your desired size.

J-Wire Manager

All tables with a power upgrade are to come standard with one J-wire manager made of extruded plastic to hold wires. The J-wire manager is shipped loose and comes with double sided tape to assist with placement in the field. All J-wire managers must be installed wtih the included screws.

LIAT

Use this checklist to be sure you have all of the necessary information to place your order.

☐ **Catalog Number**

Use our build guides to create your catalog number.

☐ **Laminate Selection**

Standard Wilsonart or Formica. Please specify manufacturer, color, finish and model number.

☐ **PVC Edge Band**

See 8 for a complete list of standard LIAT PVC Edge Band options.

☐ **Accessories**

Tops

Table tops are constructed of 1” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all exposed sides with a 3mm PVC band.

Keels

Shared tables include two keels constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band on the bottom side extending 8” down from the top and spaced 6” from one another. The keels attach to the end panels by means of Mod-eez clips and shoulder screws, and to the top by means of angle mounting brackets and screws.

Back Panel

The computer table back panel is constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band on the bottom and top sides. The panel is captured on the inside of the end/intermediate panels and starts 13-1/2” above the ground, extending to the same height as the top. There is a 1-1/4” cord drop between the back of the top and the back panel. The back panel attaches to the end/intermediate panels by means of Mod-eez clips and shoulder screws. The back panels of double-faced units shall receive one pass-through grommet.

End/Intermediate Panel

The end and intermediate panels are constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band on all sides. The panels protrude 1/8” above the work surface and attach to the top by means of a z-bar connector and screws. All intermediate panels include a pass-through grommet for wires. Each panel is fitted with two 1-1/4” diameter rubber cushioned adjustable leveling glides with a 15/16” stem.

Acrylic Divider

The acrylic divider extends from the top of the end and/or back panel(s), and the panel receives a 1/4” route to accept 1/4” thick clear acrylic panel, frosted on both sides and extends 12, 18 or 24” above the work surface.

Electrical / Power

The standard built-in power upgrade option is an all metal flush clamp mounted power and charging solution with 2 power and 2 USB 2.1A charging ports and 108” cord length, constructed with 12A, 120 VAC spill resistant receptacles. Power units are available in Silver Pearl (-PS), Gloss White (-PW) and Black Powder Coat (-PB) finishes.

Wire Management Tray

All computer tables include a wire management trough constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band on the top edge. The trough attaches to the end panels by means of Mod-eez clips and shoulder screws at a 45 degree angle with house holes on either side. There should be at least 3” of space between the top and the trough for access to wires.

J-Wire Manager

All carrel and computer table products, as well as study tables with a power cutout, come standard with one J-wire manager made of extruded plastic to hold wires. The J-wire manager is shipped loose and comes with double sided tape to assist with placement in the field. All J-wire managers must be installed with the included screws.

Aluminum Reveals

All end panels are available with two 1/8” by 1/8” aluminum reveals running the width of the table. The reveals sit in an 1/8” wide x 1/16” deep route 6” above the bottom of the panel with 3” spacing.

Grain Pattern

Any wood grain laminate will run in the horizontal direction on the end and back panels. A vertical application will be limited to wood grain laminates available in a cross grain pattern and must be specified at the time of order.

Tops

Carrel tops are constructed of 1” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all exposed sides with a 3mm PVC band.

End/Intermediate Panel

The end and intermediate panels are constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band on all sides. The panels attach to the top by means of a z-bar connector and screws. All intermediate panels include a pass-through grommet for wires. Each panel is fitted with two 1-1/4” diameter rubber cushioned adjustable leveling glides with a 15/16” stem.

Back Panel

The back panel is constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band the top and bottom sides. There is a 1-1/4” cord drop between the back of the top and the back panel. The back panel attaches to the end/intermediate panels by means of Mod-eez clips and shoulder screws. Double-faced panels receive one pass-through grommet.

Shelf

The shelf is 9” deep and constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band the front side. The shelf attaches to the end/intermediate panels by means of shoulder screws and Mod-eez clips, and are secured to the back panels with an embedded connector.

Valance

All top shelves receive a valance, which is constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC edge on the bottom edge. The valance extends 2-1/2” below the shelf, and is attached by means of (3) wood screws passing through the valance and into the shelf.

Electrical / Power

The standard built-in power upgrade option is an all metal flush clamp mounted power and charging solution with 2 power and 2 USB 2.1A charging ports and 108” cord length, constructed with 12A, 120 VAC spill resistant receptacles. Power units are available in Silver Pearl (-PS), Gloss White (-PW) and Black Powder Coat (-PB) finishes.

Aluminum Reveals

All end panels are available with two 1/8” by 1/8” aluminum reveals running the width of the table. The reveals sit in an 1/8” wide x 1/16” deep route 6” above the bottom of the panel with 3” spacing.

Grain Pattern

Any wood grain laminate will run in the horizontal direction on the end and back panels. A vertical application will be limited to wood grain laminates available in a cross grain pattern and must be specified at the time of order.

Tops

Den tops are constructed of 1” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all exposed sides with a 3mm PVC band.

End/Intermediate Panel

The end and intermediate panels are constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band on all sides. The panels attach to the top by means of a z-bar connector and screws. All intermediate panels include a pass-through grommet for wires. Each panel is fitted with two 1-1/4” diameter rubber cushioned adjustable leveling glides with a 15/16” stem.

Back Panel

The back panel is constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band the top and bottom sides. The back panel attaches to the end/intermediate panels by means of Mod-eez clips and shoulder screws, and to the top by means of a z-bar connector and screws. Double-faced panels receive one pass-through grommet.

Shelf

The shelf is 12” deep and constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band the front side. The shelf attaches to the end/intermediate panels by means of z-bar connectors and screws

Top Support

Single sided dens have a triangular top support constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band the front side. The support attaches to the end/intermediate panels by means Mod-eez clips and shoulder screws, and to the top by means of z-bar connector and screws.

Disc Base

Double sided dens have a disc base that are constructed of a 4” x 16 gauge steel column attached to a round steel plate at the base that attaches to the column with (2) flathead machine screws from the bottom side. The column is welded to a 12” x 12” plate that attaches to the top with (12) #14 x 1” tapping PPH screws. The disc base includes leveling glides.

Electrical / Power

The standard built-in power upgrade option is an all metal flush clamp mounted power and charging solution with 2 power and 2 USB 2.1A charging ports and 108” cord length, constructed with 12A, 120 VAC spill resistant receptacles. Power units are available in Silver Pearl (-PS), Gloss White (-PW) and Black Powder Coat (-PB) finishes.

Aluminum Reveals

All end panels are available with two 1/8” by 1/8” aluminum reveals running the width of the table. The reveals sit in an 1/8” wide x 1/16” deep route 6” above the bottom of the panel with 3” spacing.

Grain Pattern

Any wood grain laminate will run in the horizontal direction on the end and back panels. A vertical application will be limited to wood grain laminates available in a cross grain pattern and must be specified at the time of order.

Tops

Power bar tops are constructed of 1” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all exposed sides with a 3mm PVC band.

Panel

The end and panels are constructed of 1” thick particle board core with high pressure laminate on both faces, externally banded with a 3mm PVC band on all exposed sides. The panels attach to the top by means of angle mounting brackets and screws. Each panel is fitted with two 1-1/4” diameter rubber cushioned adjustable leveling glides with a 15/16” stem.

Back Wall

The back wall is constructed of 1” thick particle board core panels with high pressure laminate on both faces, externally banded with a 3mm PVC band on all exposed sides. The back wall is 14-3/4” deep and attaches to the end panels by means of Mod-eez clips and shoulder screws and to the top by means of z-bar connectors and screws. The back wall includes a top cap and glides.

Electrical / Power

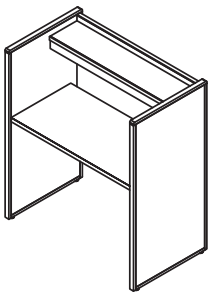
The standard built-in power upgrade option is an all metal flush clamp mounted power and charging solution with 2 power and 2 USB 2.1A charging ports and 108” cord length, constructed with 12A, 120 VAC spill resistant receptacles. Power units are available in Silver Pearl (-PS), Gloss White (-PW) and Black Powder Coat (-PB) finishes.

Aluminum Reveals

All end panels are available with two 1/8” by 1/8” aluminum reveals running the width of the table. The reveals sit in an 1/8” wide x 1/16” deep route 6” above the bottom of the panel with 3” spacing.

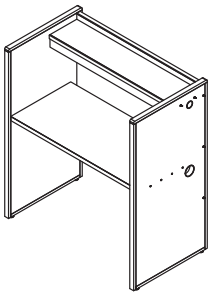
Grain Pattern

Any wood grain laminate will run in the horizontal direction on the end and back panels. A vertical application will be limited to wood grain laminates available in a cross grain pattern and must be specified at the time of order.



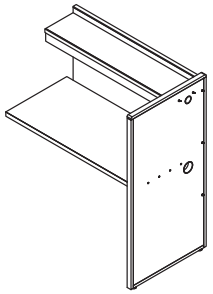
Island

Island units are stand-alone or free-standing, and come with two end panels.



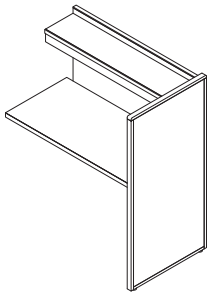
Starter

Starter units act as a starting point for a run of carrels, and come with one end panel and one intermediate panel. ***All starters must be ordered with an end.***



Adder

Adder units act as an extension for a run of carrels, and come with one intermediate panel. ***All adders must be ordered with both a starter and an end unit. There is no limit to the amount of adders allowed in a given run.***



End

End units act as an ending point for a run of carrels, and come with one end panel. ***All ends must be ordered with a starter.***

LIAT

Use this checklist to be sure you have all of the necessary information to place your order.

☐ **Catalog Number**
Use our build guides to create your catalog number.

☐ **Laminate Selection** ***Laminate tops only***
Standard Wilsonart or Formica. Please specify manufacturer, color, finish and model number.

☐ **PVC Edge Band** ***PVC banded tops only***
See 8 for a complete list of standard LIAT PVC Edge Band options.

☐ **Metal Color Selection**
See 10 for a complete list of standard LIAT Metal Color options. (NOTE: Silver is the standard Maker metal color; other colors may be an upcharge with an extended lead time. Contact project management for more information.)

☐ **Accessories**

Environmental Humidity Statement

Wood acclimates to its environment and will expand and contract with changes in the environment. It is the customers responsibility to ensure that the environment where any LIAT product is kept remains at a 45% - 55% humidity level. Any damage to the furniture resulting from improper humidity levels will void the warranty.

Glued-Up Solid Tops

Glued-Up solid tops are constructed of 1-1/4” thick solid maple with grade A 1 face and 4 edges with sound backs, glued up with 2-1/2” to 4” wide continuous staves with the grain running the length of the table. All edges are eased. Tables 60” in length and longer will receive a 14 gauge channeled stress bar for added support.

Laminate with PVC Edge Tops

Table tops are constructed of 1-1/8” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all sides with a flush 3mm PVC band. Tables 60” in length and longer will receive a 14 gauge channeled stress bar for added support.

Legs

The legs are constructed of 2” square 14 gauge steel welded to a 1/4” thick steel mounting plate and support gusset. The leg plate attaches to metal inserts in the top with (6) 5/16-18 x 1” hex head bolts and lock washers. The legs are powder coated.

Frames

The frames are constructed of 2” square 14 gauge steel welded to 1/4” thick steel mountint plates and two 2” square 4 gauge horizontal cross bars. Each leg plate attaches to metal inserts in the top with (6) 5/16-18 x 1” hex head bolts and lock washers. The frames are powder coated.

Stretchers

The stretchers are constructed of 2” square 14 gauge steel welded to 1/4” thick steel mounting plates. The mounting plates attach to the end frames with (8) 1/4-20 x 5/8” PPH machine screws and lock washers. The stretchers are powder coated.

Shelves / Modesty Panels

The shelves & modesty panels are constructed of bent 14 gauge sheet steel. The mounting plates attach to the end frames with (8) 1/4-20 x 5/8” PPH machine screws and lock washers. The shelves and modesty panels are powder coated.

Glides

Each leg includes a 1-1/4” diameter rubber cushioned adjustable leveling glide with a 15/16” stem.

Casters

Mobile legs include a 3” diameter x 1-1/4” thick polyolefin caster with a 1/2-13 x 1-1/2” stem. Each caster has a dynamic load capacity of 300+ pounds.

Storage Cabinet

The storage cabinet is constructed of two end frames connected to a lower stretcher for support. Two end panels constructed of 1-1/4” thick particle board core with grade “A” veneer faces are insert in the end frames. Two back panels constrcuted of 1/4” thick plywood with select rotary cut face veneer and an intermediate panel constructed of 1” thick veneer core with grade “A” veneer faces are captured between two shelves constrcuted of 1” thick veneer core with grade “A” veneer faces. The end and intermediate panels include shelf pin holes spaced at 2” on center for the addition of an adjustable shelf.A

Adjustable Shelves

The adjustable shelves are constructed of 1” thick veneer core with grade “A” plain sliced veneer faces with a 1/4” eased external band on the front edge. The underside of the shelf is routed to accept shelf pins.

Doors

The door fronts are constructed of 3/4” thick veneer core with grade “A” plain sliced veneer faces with a vertical grain direction. The doors include hinges with 94 degree opening angles. Locks can be added to the doors to include a lock on the right hand door and a rooster catch on the left by adding a “-LK” suffix to the part number. Locks come standard being keyed randomly; it must be specified with the order if the locks are to be keyed alike.

Drawers

The drawer fronts are constructed of 3/4” thick veneer core with grade “A” plain sliced veneer faces with a certical grain direction. The drawer boxes are constructed of 12mm birch plywood front, sides and back that are routed to accept a 1/4” thick bottom panel. THe drawer box utilizes ball bearing side-mount drawer slides with a 100+ pound rating. Locks can be added to the 24 and 34 sized drawers to include a lock on the top right of the drawer by adding a “-LK” suffix to the part number. Each drawer locks separately, and locks come standard being keyed randomly; it must be specified with the order if the locks are to be keyed alike.

Electrical / Power

All tables include an optional electrical/power cutout upgrade for use with a 4-window Axil Z power unit.

J-Wire Manager

All tables with a power upgrade are to come standard with one J-wire manager made of extruded plastic to hold wires. The J-wire manager is shipped loose and comes with double sided tape to assist with placement in the field. All J-wire managers must be installed wtih the included screws.

Doors

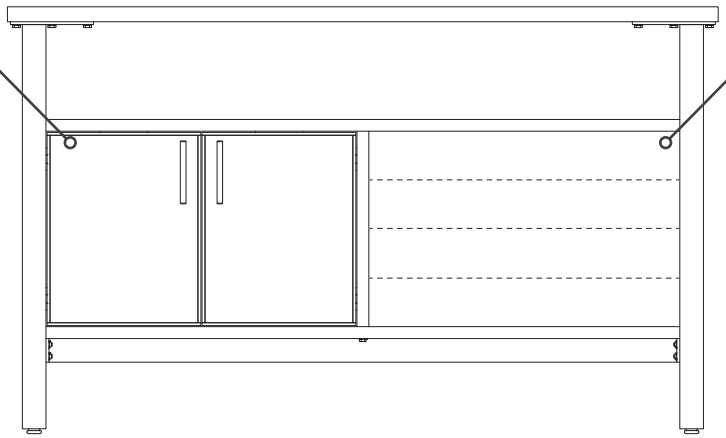
for each storage space you may add in one set of doors. We recommended combining these with some adjustable shelves to maximize the organization of your table.



Drawers

For drawers, the storage area is divided into four sections. You can choose drawers that take up 1/4, 2/4, or 3/4 sections. See our popular items for examples on ways to combine these drawers.

Use this checklist to be sure you have all of the necessary information to place your order.

☐ **Catalog Number**
Use our build guides to create your catalog number.

☐ **Laminate Selection** ***Laminate tops only***
Standard Wilsonart or Formica. Please specify manufacturer, color, finish and model number.

☐ **PVC Edge Band** ***PVC banded tops only***
See 8 for a complete list of standard LIAT PVC Edge Band options.

☐ **Metal Color Selection**
See 10 for a complete list of standard LIAT Metal Color options.

☐ **Accessories**

Tops

Table tops are constructed of 1-1/8” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all sides with a flush 3mm PVC band. Tables 60” in length and longer will receive a 14 gauge channeled stress bar for added support.

C-Base

The C-Bases are constructed of a 2-1/4” x 13 gauge steel column offset to one side of a cast aluminum foot in a powder coat finish. The column is welded to an 8” x 8” leg plate that attaches to the top with (8) #14 x 1” tapping PPH screws. Flip-tops, mobile legs and power options are available for select sizes.

T-Base

The T-Bases are constructed of a 2-1/4” x 13 gauge steel column centered on a cast aluminum foot in a powder coat finish. The column is welded to an 8” x 8” leg plate that attaches to the top with (8) #14 x 1” tapping PPH screws. Flip-tops, mobile legs and power options are available for select sizes.

X-Base

The X-Bases are constructed of a 2-1/4” x 13 gauge steel column centered on 2 cast aluminum feet in an “X” shape in a powder coat finish. The column is welded to an 12” x 12” leg plate that attaches to the top with (12) #14 x 1” tapping PPH screws. Flip-tops, mobile legs and power options are available for select sizes.

Y-Base

The Y-Bases are constructed of a 2-1/4” x 13 gauge steel column offset on 2 cast aluminum feet in a “Y” shape in a powder coat finish. The column is welded to an 8” x 8” leg plate that attaches to the top with (8) #14 x 1” tapping PPH screws. An extruded aluminum stretch spans the length between two bases. Flip-tops, mobile legs and power options are available for select sizes.

Disc Base

The Disc Bases are constructed of a 4” x 16 gauge steel column attached to a round steel plate at the base that attaches to the column with (2) flathead machine screws from the bottom side. The column is welded to a 12” x 12” plate that attaches to the top with (12) #14 x 1” tapping PPH screws.

Adjustable Leveling Glides

3/8-16 x 3/4” adjustable leveling glides come standard with all C-Base, T-Base, X-Base and Y-Base options.

Casters

Locking Casters are available on all C-Base, T-Base, X-Base and Y-Base options.

Spacers

Spacers (leveler extensions) are available to be paired with casters on all C-Base, T-Base and Y-Base options to allow the tables to be wheel barrowed.

Modesty Panel

A modesty panel can be added to any C-Base table. The modesty panel is available plain or perforated and is formed from steel sheet metal and powder coated. The folded panel bolts ot the columns of the two bases, with 3/4” of space between the top and the panel to give 10” of modesty protection.

Flip-Top

The flip-top mechanism uses a rigid wedge-locking design to eliminate all movement in the mechanism. It features a unique injection molded housing, aluminum pivot and metal slider that interact together to offer the best in fit, form and function. The folding mechanism locks and releases using a single handle located towards the front of the table.

Electrical / Power

The standard built-in power upgrade option is an all metal flush clamp mounted power and charging solution with 2 power and 2 USB 2.1A charging ports and 108” cord length, constructed with 12A, 120 VAC spill resistant receptacles. Power units are available in SIlver Pearl (-PS), Gloss White (-PW) and Black Powder Coat (-PB) finishes.

Daisy Link

The power units can be daisy linked together from a single power infeed. The units are non-sequential allowing the user to reconfigure the tables in any particular order. Each unit comes with (1) power unit, (1) female/female interconnecting cable, (1) female/male interconnecting cable and (4) plastic cable clamps and screws. Add the suffix “D” to the selected power option for this upgrade.

NOTE: *The starter cable is sold separately from the tables; see the accessories section for starter cable ordering information.*

LIAT

Use this checklist to be sure you have all of the necessary information to place your order.

☐ **Catalog Number**
Use our build guides to create your catalog number.

☐ **Laminate Selection** ***Laminate tops only***
Standard Wilsonart or Formica. Please specify manufacturer, color, finish and model number.

☐ **PVC Edge Band** ***PVC banded tops only***
See 8 for a complete list of standard LIAT PVC Edge Band options.

☐ **Accessories**

Tops

Table tops are constructed of 1-1/8” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all sides with a flush 3mm PVC band. Tables 60” in length and longer will receive a 14 gauge channeled stress bar for added support. All corners are rounded.

Standard Leg

The standard leg is constructed of a 60mm diameter steel leg connected to a square steel mounting polate with an M10 bolt. The leg plate attaches to the top with (8) #8 x 1” PPH screws. Each leg is fitted with a black 60mm diameter leveling glide that provides 1” of height adjustment. Standard legs are available at 25”, 29” and 36” high tables.

Mobile Leg

The mobile leg is constructed of a 60mm diameter steel leg connected to a square steel mounting polate with an M10 bolt. The leg plate attaches to the top with (8) #8 x 1” PPH screws. Each leg is fitted with a black 60mm locking caster that provides 1/2” of height adjustment. Mobile legs are available for 29” high tables only.

Spacer Leg

The spacer leg is constructed of a 60mm diameter steel leg connected to a square steel mounting polate with an M10 bolt. The leg plate attaches to the top with (8) #8 x 1” PPH screws. Each leg is fitted with a black 60mm diameter spacer and leveling glide at the same height as the mobile leg and provides 1/2” of height adjustment. Spacer legs are available for 29” high tables only.

Maker Board Divider

The marker board divider is made of 3/4” thick, 3-ply particle board core construction with a .050” thick high pressure marker board laminate on both faces. All corners are rounded, and the edges are externally banded with a continuous black 3mm PVC edge band. The dividers are removable and are captured in edge-mount clamps that attach to the top by means of a thumb screw underneath the surface.

Modesty Panel

The modesty panel is formed from 12 gauge steel sheet metal and powder coated. The folded panel extends past the legs with a 45 degree flange on either end, and attaches to the top by means of (8) #14 x 1” PPH screws.

Electrical / Power

The standard built-in power upgrade option is an all metal flush clamp mounted power and charging solution with 2 power and 2 USB 2.1A charging ports and 108” cord length, constructed with 12A, 120 VAC spill resistant receptacles. Power units are available in SIlver Pearl (-PS), Gloss White (-PW) and Black Powder Coat (-PB) finishes.

J-Wire Manager

All tables with a power upgrade are to come standard with one J-wire manager made of extruded plastic to hold wires. The J-wire manager is shipped loose and comes with double sided tape to assist with placement in the field. All J-wire managers must be installed wtih the included screws.

LIAT

Use this checklist to be sure you have all of the necessary information to place your order.

☐ **Catalog Number**
Use our build guides to create your catalog number.

☐ **Laminate Selection**
Standard Wilsonart or Formica. Please specify manufacturer, color, finish and model number.

☐ **PVC Edge Band**
See 8 for a complete list of standard LIAT PVC Edge Band options.

☐ **Metal Color Selection**
See 10 for a complete list of standard LIAT Metal Color options.

☐ **Accessories**

Tops

Table tops are constructed of 1-1/8” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all exposed sides a 3mm PVC band. Any top that is part of a starter/adder/end configuration will have seams, which connect with tite-joint fasteners on the underside of the top.

Table Sizes

The standard table height for Translate is 29”. Additional heights of 25” and 27” are available upon request. Due to the inward taper of the frames, Translate tables cannot be ordered at heights above 29”. Width and length sizes of the tables are nominal; contact project management prior to ordering should the overall dimensions be critical.

Open Frame Base

The open welded metal frame bases are constructed of 1” x 3” 16 gauge tubular steel with two horizontal rails at the top and bottom mitered and welded to two vertical rails at either side, angled with a 5 degree inward taper from the top. All corner miters and welds are to be ground smooth. Each frame includes two 1/4” thick steel support tabs welded at either end. Two metal cross stretchers running lengthwise are constructed of 1” square 16 gauge tubular steel with three holes for #14 x 3/4” PPH screws and star washers to attach the frame to the top. The cross stretchers are bolted to the metal end frames for added stability.

Acrylic Panel Frame Base

The open welded metal frame bases are constructed of 1” x 3” 16 gauge tubular steel with two horizontal rails at the top and bottom mitered and welded to two vertical rails at either side, angled with a 5 degree inward taper from the top. All corner miters and welds are to be ground smooth. Each frame includes two 1/4” thick steel support tabs welded at either end. There are two inset tabs welded to each vertical rail running the entire length of the rail. Two 1/4” thick acrylic panels are captured flush inside the frames by means of dual-lock tape. The inner panel includes mouse holes at the top and bottom for wire managment. Two metal cross stretchers running lengthwise are constructed of 1” square 16 gauge tubular steel with three holes for #14 x 3/4” PPH screws and star washers to attach the frame to the top. The cross stretchers are bolted to the metal end frames for added stability.

Laminate Panel Frame Base

The open welded metal frame bases are constructed of 1” x 3” 16 gauge tubular steel with two horizontal rails at the top and bottom mitered and welded to two vertical rails at either side, angled with a 5 degree inward taper from the top. All corner miters and welds are to be ground smooth. Each frame includes two 1/4” thick steel support tabs welded at either end. There are two inset tabs welded to each vertical rail running the entire length of the rail. Two 1/4” thick wood panels with vertical grade high pressure laminate on the exposed face are captured flush inside the frames by means of dual-lock tape. The inner panel includes mouse holes at the top and bottom for wire managment. Two metal cross stretchers running lengthwise are constructed of 1” square 16 gauge tubular steel with three holes for #14 x 3/4” PPH screws and star washers to attach the frame to the top. The cross stretchers are bolted to the metal end frames for added stability.

X-Base

The X-base is constructed of 1” x 3” 16 gauge tubular steel with two horizontal rails at the top and bottom mitered and welded to four vertical rails at either side, angled with a 5 degree inward taper from the top. The top horizontal rails include through holes for #14 x 3/4” PPH screws and star washers to attach the base to the top. All corner miters and welds are to be ground smooth.

Glides

Each frame is fitted with 1-1/4” diamter rubber cushioned adjustable leveling glides with a 15/16” stem.

Acrylic Divider (Single Face)

The single face acrylic divider extends 8” above the work surface and is constructed of 1/4” thick clear acrylic frosted on both sides. The divider is captured in steel glass clamps with rubber gaskets, which attach to the table top by means of #8 x 1” PFH wood screws. All edges of the divider are eased and polished. The divider runs along the back edge of single face units.

Acrylic Divider (Double Face)

The double face acrylic divider starts 1” above the work surface and extends to 8” above the work surface and is constructed of 1/4” thick clear acrylic frosted on both sides. The divider is captured between powder coated divider posts constructed of 1” square powder coated steel bars with a 1/4” thick x 3/8” deep route to hold the acrylic, and a 1/4”-20 x 1-3/4” long threaded rod extending from the bottom to pass through the work surface and frame and is held in place with a nut and star washer. The top and bottom edges of the acrylic are eased and polished. The divider runs lengthwise between the users on double face units.

Wire Manager Leg

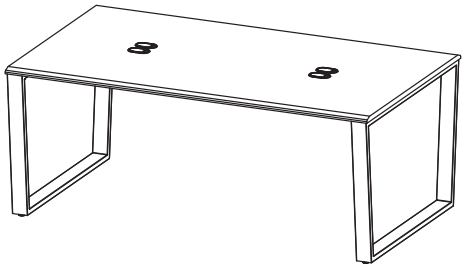
The optional removable door leg comes with an egress hole near the top and bottom of the leg. Between the two egress holes is a removable 16 gauge powder coated steel door held in place by means fo four 1/8” thick x 1/2” wide x 1-1/2” long neodynium magnets with a 6.56lb pull allowing access to wire management without having to snake cords through the leg. The wire leg is only available on open frame units.

Electrical / Power

The standard built-in power upgrade options include cutouts for M2X and Mho power units that provide various options for power outlets, data ports and USB charging. Power units must be ordered separately. See the accessories for standard offerings, or contact project management to customize your desired selection.

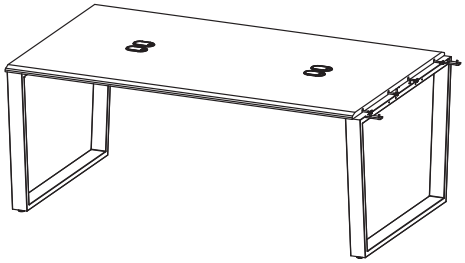
J-Wire Manager

All tables with a power upgrade are to come standard with one J-wire manager made of extruded plastic to hold wires. The J-wire manager is shipped loose and comes with double sided tape to assist with placement in the field. All J-wire managers must be installed wtih the included screws.



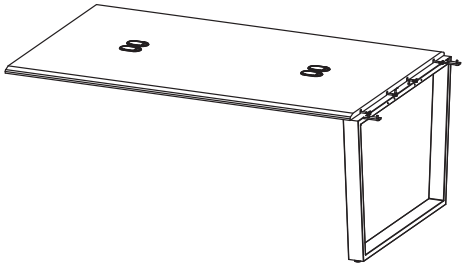
Island

Island units are stand-alone or free-standing. The top is banded on all four sides, and the table includes two end frames.



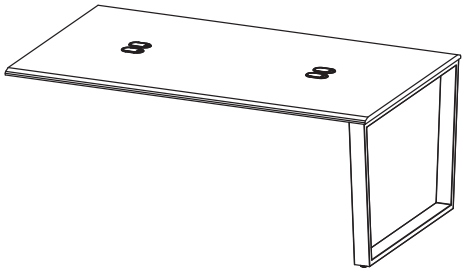
Starter

Starter units act as a starting point for a run of tables. The top is banded on two long edges and one end, and the table includes one end frame and one intermediate frame to be shared with the next table. ***All starters must be ordered with an end.***



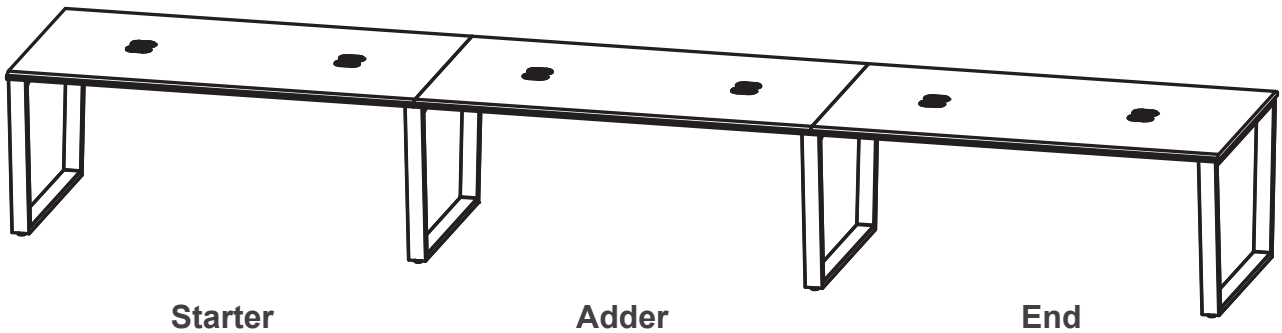
Adder

Adder units act as an extension for a run of tables. The top is banded on two long edges, and the table includes one intermediate frame to be shared with the next table. ***All adders must be ordered with both a starter and an end unit. There is no limit to the amount of adders allowed in a given run.***

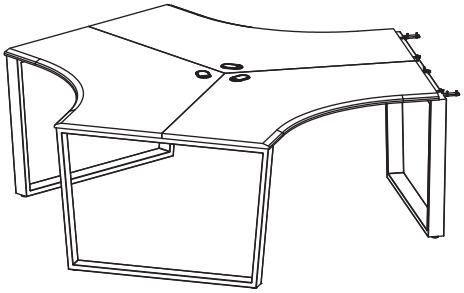


End

End units act as an ending point for a run of tables. The top is banded on two long edges and one end, and the table includes one end frame and one intermediate frame to be shared with the next table. ***All ends must be ordered with a starter.***

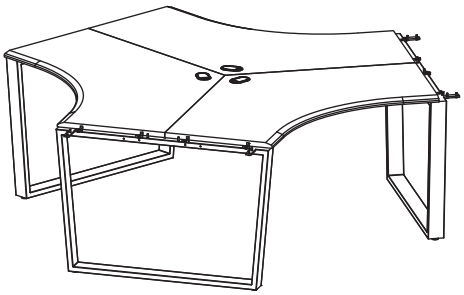


Starter **Adder** **End**



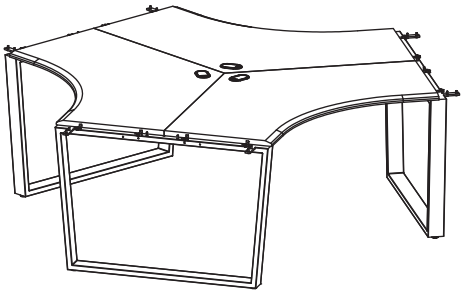
Starter 1 (Pod)

Starter 1 units start a run of tables in one direction. The top is banded on all user sides and two ends, and the table includes two end frames and one intermediate frame to be shared with the next table. ***There must be one End table ordered for every Starter 1 table.***



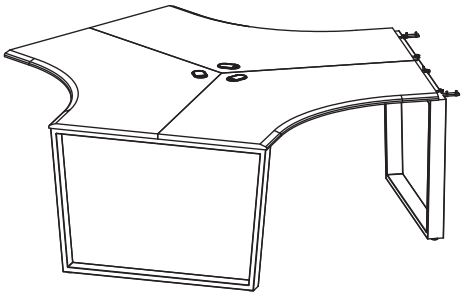
Starter 2 (Pod)

Starter 2 units start a run of tables in two directions. The top is banded on all user sides and one end, and the table includes one end frame and two intermediate frames to be shared with the next tables. ***There must be two End tables ordered for every Starter 2 table.***



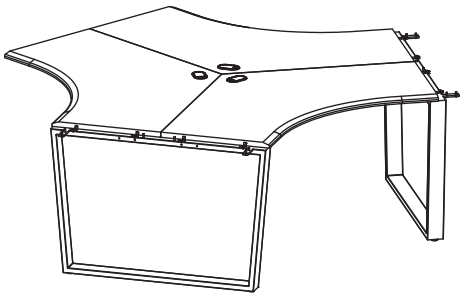
Starter 3 (Pod)

Starter 3 units start a run of tables in three directions. The top is banded on all user sides, and the table includes three intermediate frames to be shared with the next tables. ***There must be three End tables ordered for every Starter 3 table.***



Adder 1 (Pod)

Adder 1 units continue a run of tables in one direction. The top is banded on all user sides and one end, and the table includes one end frame and one intermediate frame to be shared with the next table. ***There is no limit to the amount of adders allowed in a given run.***



Adder 2 (Pod)

Adder 2 units continue a run of tables in two directions. The top is banded on all user sides, and the table includes two intermediate frames to be shared with the next tables. ***There is no limit to the amount of adders allowed in a given run.***

LIAT

Use this checklist to be sure you have all of the necessary information to place your order.

☐ **Catalog Number**
Use our build guides to create your catalog number.

☐ **Laminate Selection**
Standard Wilsonart or Formica. Please specify manufacturer, color, finish and model number.

☐ **PVC Edge Band**
See 8 for a complete list of standard LIAT PVC Edge Band options.

☐ **Metal Color Selection**
See 10 for a complete list of standard LIAT Metal Color options.

☐ **Accessories**

Tops

Table tops are constructed of 1-1/8” thick particle board core with a high pressure laminate on top and a backer sheet on the bottom. The edges are externally banded on all exposed sides a 3mm PVC band. Any top that is part of a starter/adder/end configuration will have seams, which connect with tite-joint fasteners on the underside of the top.

Table Sizes

The standard table height for Versailles is 29”. Additional heights of 25”, 27” and 39” are available upon request. Width and length sizes of the tables are nominal; contact project management prior to ordering should the overall dimensions be critical.

Round Legs

The round leg shape is constructed of 2” diameter 16 gauge tubular steel with a 1” diameter x 2” high steel pintel welded to a 4” x 4” metal plate and powder coated. The plate attaches to the underside of the table top with 5/16”-18 x 1” bolts engaging threaded inserts.

Diamond Legs

The round leg shape is constructed of 1-1/2” square 16 gauge tubular steel with a 3/4” square x 2” high steel pintel welded to a 4” x 4” metal plate and powder coated. The plate attaches to the underside of the table top with 5/16”-18 x 1” bolts engaging threaded inserts.

Square Legs

The round leg shape is constructed of 2” square 16 gauge tubular steel with a 1” square x 2” high steel pintel welded to a 4” x 4” metal plate and powder coated. The plate attaches to the underside of the table top with 5/16”-18 x 1” bolts engaging threaded inserts.

Open Frame Base

The welded metal frame base is constructed of a 1” x 2” 16 gauge tubular steel cross bar welded to two standard shaped 16 gauge tubular steel legs with 2” high pintels. The metal cross stretcher(s) running length wise are constructed of 1” x 2” rectangular 16 gauge tubular steel and have at least two “T” shaped support brackets welded on the top for additional table support. Any table 42” wide or more will have two cross stretchers. The cross stretcher(s) are bolted to the metal end frames for added stability. The legs attach to the table top by using #12 x 1” PPH screws and star washers.

Acrylic Panel Frame Base

The welded metal frame base is constructed of an upper and lower 1” x 2” 16 gauge tubular steel cross bar welded to two standard shaped 16 gauge tubular steel legs with 2” high pintels. There are two tabs welded to each cross bar. A 1/4” thick acrylic panel is captured between the legs and cross bars by inserting decorative threaded ball and cap rods through the tabs and panel. The metal cross stretcher(s) running length wise are constructed of 1” x 2” rectangular 16 gauge tubular steel and have at least two “T” shaped support brackets welded on the top for additional table support. Any table 42” wide or more will have two cross stretchers. The cross stretcher(s) are bolted to the metal end frames for added stability. The legs attach to the table top by using #12 x 1” PPH screws and star washers.

Laminate Panel Frame Base

The welded metal frame base is constructed of an upper and lower 1” x 2” 16 gauge tubular steel cross bar welded to two standard shaped 16 gauge tubular steel legs with 2” high pintels. There are two tabs welded to each cross bar. A 1/4” thick panel with vertical grade high pressure laminate on both faces is captured between the legs and cross bars by inserting decorative threaded ball and cap rods through the tabs and panel. The metal cross stretcher(s) running length wise are constructed of 1” x 2” rectangular 16 gauge tubular steel and have at least two “T” shaped support brackets welded on the top for additional table support. Any table 42” wide or more will have two cross stretchers. The cross stretcher(s) are bolted to the metal end frames for added stability. The legs attach to the table top by using #12 x 1” PPH screws and star washers.

Electrical / Power

The standard built-in power upgrade options include cutouts for Axil Z power units that provide various options for power outlets, data ports and USB charging. Power units must be ordered separately. See the accessories for standard offerings, or contact project management to customize your desired selection.

Wire Manager Leg (Round)

The optional wire leg for the round shaped leg comes with an egress hole near the top and bottom of the leg. Between the two egress holes is a flipper door held in place with spring loaded hinges allowing access to wire management without having to snake cords through the leg.

Wire Manager Leg (Square & Diamond)

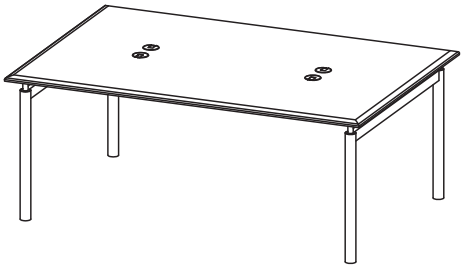
The optional wire leg for the square and diamond shaped legs come with an egress hole near the top and bottom of the leg. Between the two egress holes is a removable 16 gauge powder coated steel door held in place by means of four 1/8” thick x 1/2” wide x 1-1/2” long neodymium magnets with a 6.56lb pull allowing access to wire management without having to snake cords through the leg.

Wire Manager Tray

The optional wire manager tray is available only on tables with two cross stretchers (42” wide and above). It is constructed of 1/4” thick black melamine and is captured between the horizontal cross stretchers running the length of the table. Connecting tabs with threaded holes are recessed 1/4” from the bottom of the stretchers so the tray lies flush with the bottom of the stretchers.

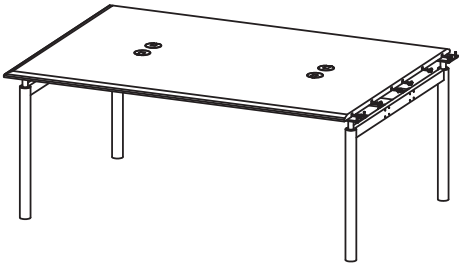
J-Wire Manager

All tables with a power upgrade are to come standard with one J-wire manager made of extruded plastic to hold wires. The J-wire manager is shipped loose and comes with double sided tape to assist with placement in the field. All J-wire managers must be installed wtih the included screws.



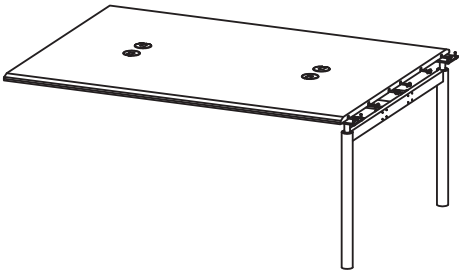
Island

Island units are stand-alone or free-standing. The top is banded on all four sides, and the table includes two end frames.



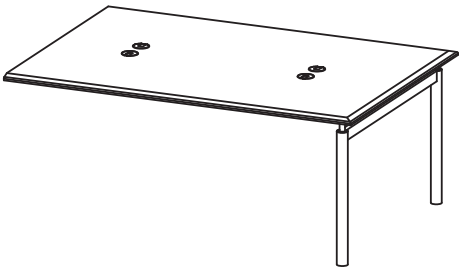
Starter

Starter units act as a starting point for a run of tables. The top is banded on two long edges and one end, and the table includes one end frame and one intermediate frame to be shared with the next table. ***All starters must be ordered with an end.***



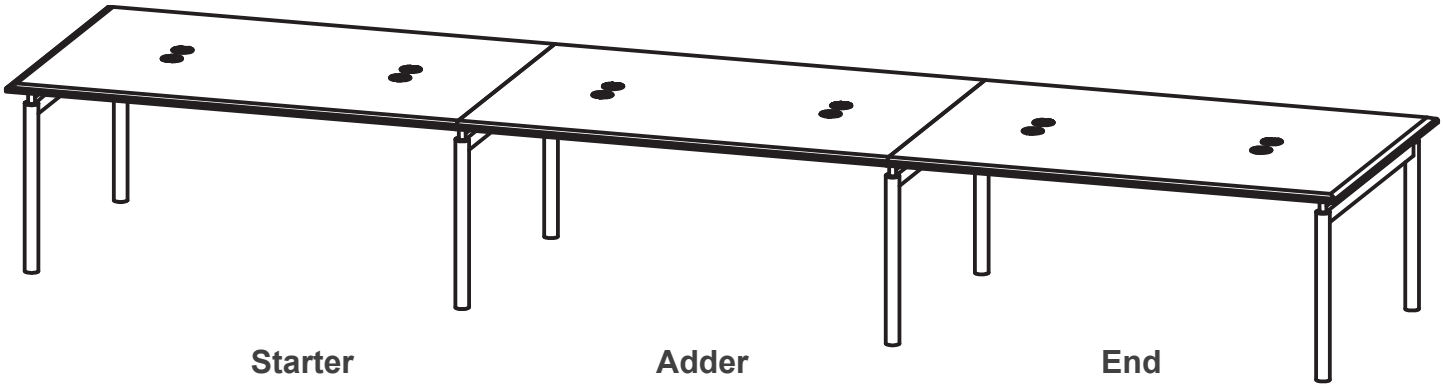
Adder

Adder units act as an extension for a run of tables. The top is banded on two long edges, and the table includes one intermediate frame to be shared with the next table. ***All adders must be ordered with both a starter and an end unit. There is no limit to the amount of adders allowed in a given run.***

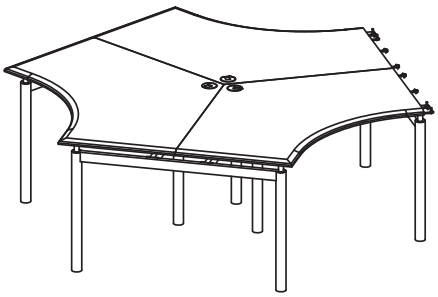


End

End units act as an ending point for a run of tables. The top is banded on two long edges and one end, and the table includes one end frame and one intermediate frame to be shared with the next table. ***All ends must be ordered with a starter.***

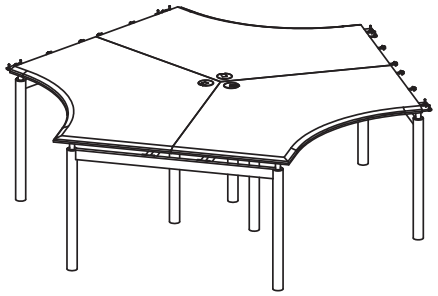


Starter **Adder** **End**



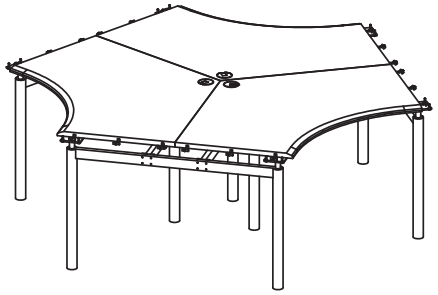
Starter 1 (Pod)

Starter 1 units start a run of tables in one direction. The top is banded on all user sides and two ends, and the table includes two end frames and one intermediate frame to be shared with the next table. ***There must be one End table ordered for every Starter 1 table.***



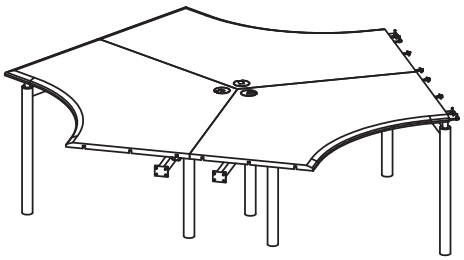
Starter 2 (Pod)

Starter 2 units start a run of tables in two directions. The top is banded on all user sides and one end, and the table includes one end frame and two intermediate frames to be shared with the next tables. ***There must be two End tables ordered for every Starter 2 table.***



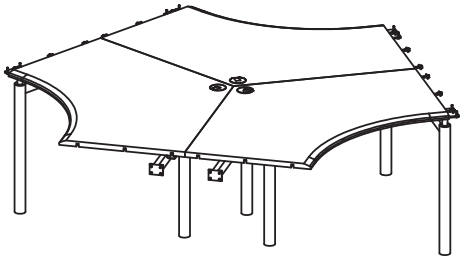
Starter 3 (Pod)

Starter 3 units start a run of tables in three directions. The top is banded on all user sides, and the table includes three intermediate frames to be shared with the next tables. ***There must be three End tables ordered for every Starter 3 table.***



Adder 1 (Pod)

Adder 1 units continue a run of tables in one direction. The top is banded on all user sides and one end, and the table includes one end frame and one intermediate frame to be shared with the next table. ***There is no limit to the amount of adders allowed in a given run.***



Adder 2 (Pod)

Adder 2 units continue a run of tables in two directions. The top is banded on all user sides, and the table includes two intermediate frames to be shared with the next tables. ***There is no limit to the amount of adders allowed in a given run.***

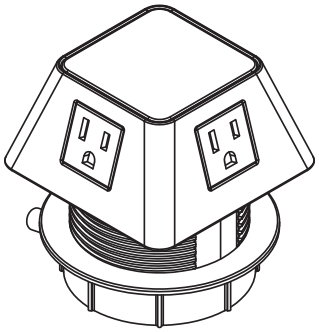
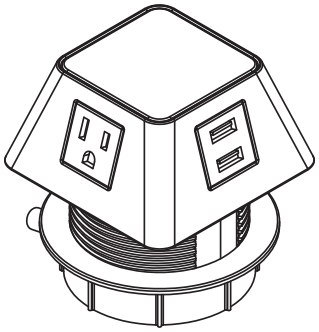
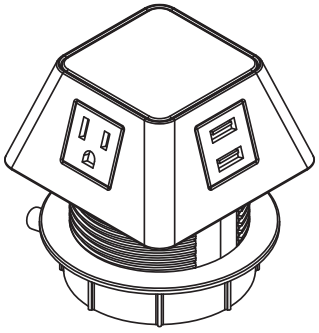
Part Number	LA-MOH4-202-C120
Description	Moire, Hole Mount
Power/Data	2 Power, 2 Open Data
Power Supply	120” Long Cord, 15A plug
Finish Options	Gloss White (**-W**); Gloss Black (**-B**)
List Price	$541



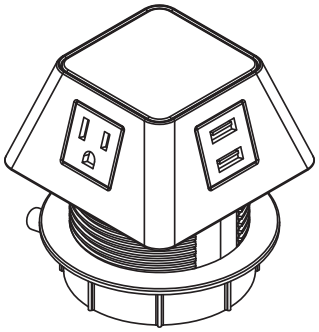
Part Number	LA-MOH4-400-C120
Description	Moire, Hole Mount
Power/Data	4 Power
Power Supply	120” Long Cord, 15A plug
Finish Options	Gloss White (**-W**); Gloss Black (**-B**)
List Price	$541



Part Number	LA-MOH4-310-C120
Description	Moire, Hole Mount
Power/Data	3 Power, 1 USB
Power Supply	120” Long Cord, 15A plug
Finish Options	Gloss White (**-W**); Gloss Black (**-B**)
List Price	$574

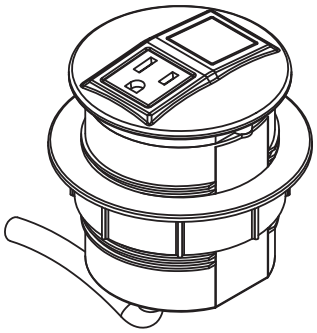


Part Number	LA-MOH4-211-C120
Description	Moire, Hole Mount
Power/Data	2 Power, 1 USB, 1 Open Data
Power Supply	120” Long Cord, 15A plug
Finish Options	Gloss White (**-W**); Gloss Black (**-B**)
List Price	$574

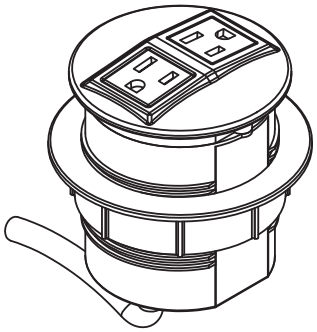


Part Number	LA-MOH4-220-C120
Description	Moire, Hole Mount
Power/Data	2 Power, 2 USB
Power Supply	120” Long Cord, 15A plug
Finish Options	Gloss White (**-W**); Gloss Black (**-B**)
List Price	$660

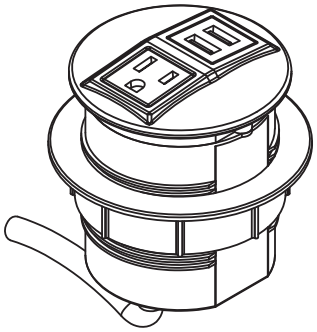
***Built-in Power & Data options require a hole in the top. Not all items work with all collections. Contact Project Management to ensure your power selection will work with your table.*



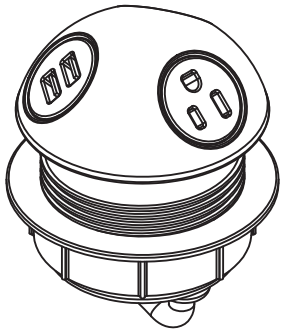
Part Number	LA-NOD2-101-C120
Description	Node, Hole Mount
Power/Data	1 Power, 1 Open Data
Power Supply	120” Long Cord, 15A plug
Finish Options	Parchment (**-PP**); Silver (**-SP**); Midnight (**-MP**)
List Price	$400



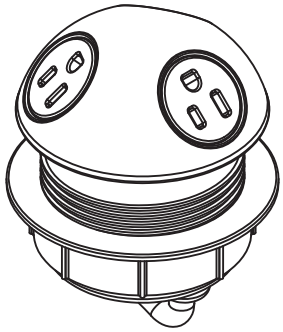
Part Number	LA-NOD2-200-C120
Description	Node, Hole Mount
Power/Data	2 Power
Power Supply	120” Long Cord, 15A plug
Finish Options	Parchment (**-PP**); Silver (**-SP**); Midnight (**-MP**)
List Price	$411



Part Number	LA-NOD2-110-C120
Description	Node, Hole Mount
Power/Data	1 Power, 1 USB
Power Supply	120” Long Cord, 15A plug
Finish Options	Parchment (**-PP**); Silver (**-SP**); Midnight (**-MP**)
List Price	$504



Part Number	LA-HEM3-210-C120
Description	Hemisphere, Hole Mount
Power/Data	2 Power, 1 USB
Power Supply	120” Long Cord, 15A plug
Finish Options	Soft Touch Black (**-B**); Soft Touch White (**-W**)
List Price	$480



Part Number	LA-HEM3-300-C120
Description	Hemisphere, Hole Mount
Power/Data	3 Power
Power Supply	120” Long Cord, 15A plug
Finish Options	Soft Touch Black (**-B**); Soft Touch White (**-W**)
List Price	$480

***Built-in Power & Data options require a hole in the top. Not all items work with all collections. Contact Project Management to ensure your power selection will work with your table.*

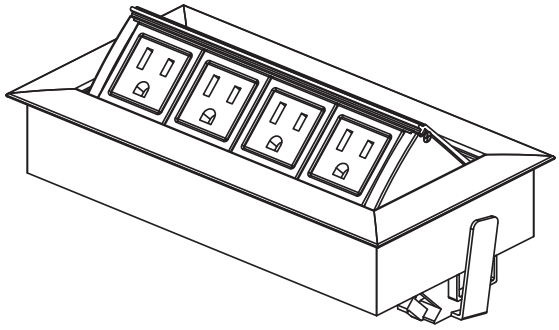
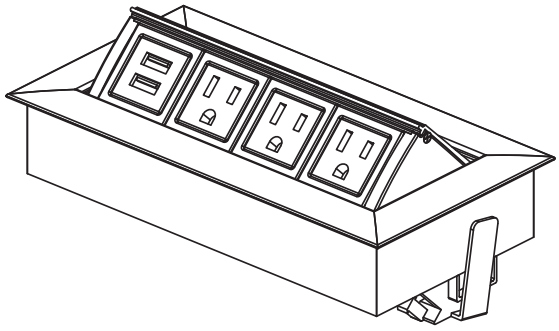
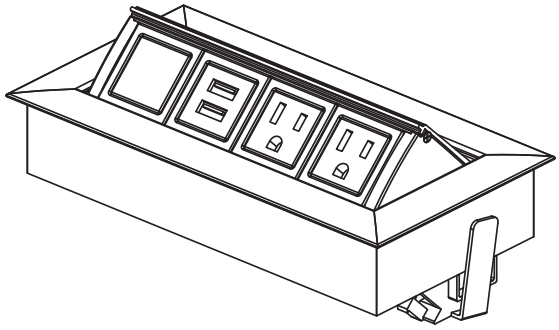
Part Number	LA-MHO4-202-C120
Description	Mho, Single Face Flip-Up / Flat Mount
Power/Data	2 Power, 2 Open Data
Power Supply	120” Long Cord, 15A plug
Finish Options	Silver Aluminum (**-SA**); Black Aluminum (**-BA**)
List Price	$721



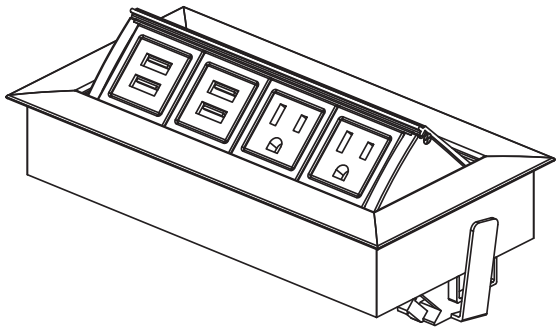
Part Number	LA-MHO4-400-C120
Description	Mho, Single Face Flip-Up / Flat Mount
Power/Data	4 Power
Power Supply	120” Long Cord, 15A plug
Finish Options	Silver Aluminum (**-SA**); Black Aluminum (**-BA**)
List Price	$817



Part Number	LA-MHO4-310-C120
Description	Mho, Single Face Flip-Up / Flat Mount
Power/Data	3 Power, 1 USB
Power Supply	120” Long Cord, 15A plug
Finish Options	Silver Aluminum (**-SA**); Black Aluminum (**-BA**)
List Price	$829



Part Number	LA-MHO4-211-C120
Description	Mho, Single Face Flip-Up / Flat Mount
Power/Data	2 Power, 1 USB, 1 Open Data
Power Supply	120” Long Cord, 15A plug
Finish Options	Silver Aluminum (**-SA**); Black Aluminum (**-BA**)
List Price	$864



Part Number	LA-MHO4-220-C120
Description	Mho, Single Face Flip-Up / Flat Mount
Power/Data	2 Power, 2 USB
Power Supply	120” Long Cord, 15A plug
Finish Options	Silver Aluminum (**-SA**); Black Aluminum (**-BA**)
List Price	$912

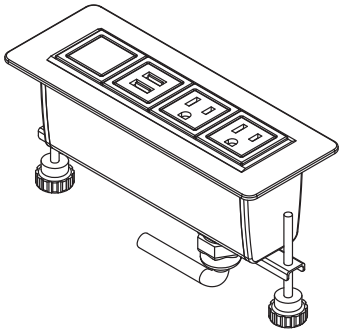
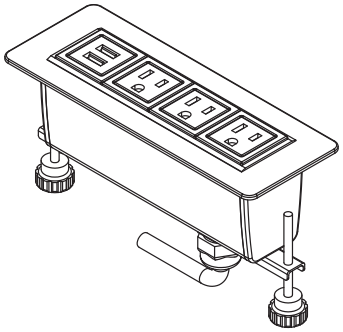
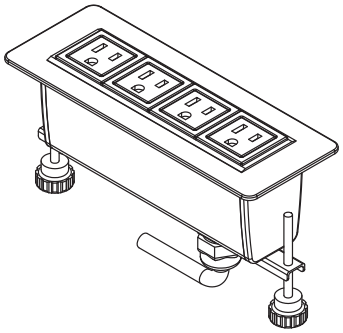
Part Number	LA-AXZ4-202-C120
Description	Axil Z, Flat Mount
Power/Data	2 Power, 2 Open Data
Power Supply	120” Long Cord, 15A plug
Finish Options	White (**-W**); Black (**-B**); Silver (**-S**)
List Price	$574



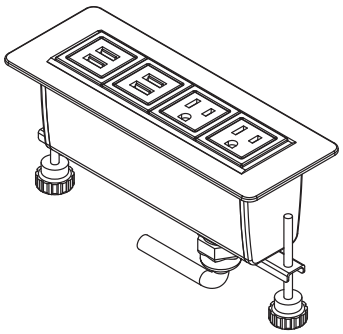
Part Number	LA-AXZ4-211-C120
Description	Axil Z, Flat Mount
Power/Data	2 Power, 1 USB, 1 Open Data
Power Supply	120” Long Cord, 15A plug
Finish Options	White (**-W**); Black (**-B**); Silver (**-S**)
List Price	$669



Part Number	LA-AXZ4-310-C120
Description	Axil Z, Flat Mount
Power/Data	3 Power, 1 USB
Power Supply	120” Long Cord, 15A plug
Finish Options	White (**-W**); Black (**-B**); Silver (**-S**)
List Price	$689



Part Number	LA-AXZ4-400-C120
Description	Axil Z, Flat Mount
Power/Data	4 Power
Power Supply	120” Long Cord, 15A plug
Finish Options	White (**-W**); Black (**-B**); Silver (**-S**)
List Price	$702



Part Number	LA-AXZ4-220-C120
Description	Axil Z, Flat Mount
Power/Data	2 Power, 2 USB
Power Supply	120” Long Cord, 15A plug
Finish Options	White (**-W**); Black (**-B**); Silver (**-S**)
List Price	$763

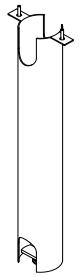
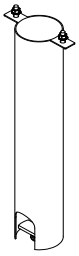
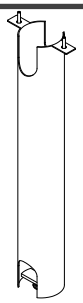
Part Number	LA-WC01
Description	Table Leg Wire Clip
Size	1-3/16” T x 60mm Dia
Finish Options	Graphite (**-GF**); Aluminum (**-AL**); Transparent (**-TR**)
List Price	$90



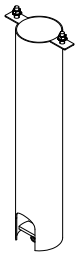
Part Number	VS-DK-25RL-UT-WL
Description	Table Wire Leg
Size	23 3/4” T x 3 1/2” Dia
Finish Options	Metallic Silver (**-23**); Black (**-90**)
List Price	$563



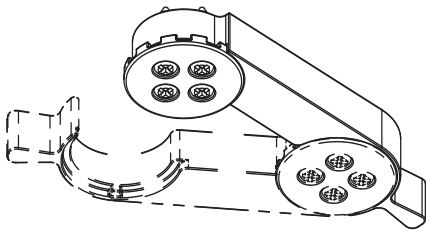
Part Number	VS-DK-25RL-WM-WL
Description	Table Wire Leg
Size	23 3/4” T x 3 1/2” Dia
Finish Options	Metallic Silver (**-23**); Black (**-90**)
List Price	$563



Part Number	VS-DK-29RL-UT-WL
Description	Table Wire Leg
Size	29” T x 3 1/2” Dia
Finish Options	Metallic Silver (**-23**); Black (**-90**)
List Price	$583



Part Number	VS-DK-29RL-WM-WL
Description	Table Wire Leg
Size	29” T x 3 1/2” Dia
Finish Options	Metallic Silver (**-23**); Black (**-90**)
List Price	$583



Part Number	LA-TC900
Description	“Lock” Table Connector; 1 Set
Size	5/8” T x 2” W x 5-1/2” L
Finish Options	Black
List Price	$150
