PSTC Task Force Meeting 1 Summary Subgroup – Sustainability and Resilience

Meeting Date May 4, 2023

Attendees

Bonita Johnson
Jay Bassett
Susan Evans
City Staff
Urban Staff

Meeting Agenda

• Welcome and Introductions
• Week 1 Presentation
• Warm-Up Exercise
• Visioning Exercise
• Wrap-Up and Next Steps

Meeting Summary

• More information on Sustainability and Resilience details can be found on the environmental site assessment portion of the website at atltrainingcenter.com. Head to the “Studies and Determination” section
• The group discussed investigating existing studies and documents that indicate where actions can adversely impact the environment and neighboring communities
• Consider the application of the broader climate action plans for the City of Atlanta for community engagement
• Environmental grants should also be considered with the City of Atlanta. Projects and recommendations should align with the upcoming funding and implementation opportunities. Some examples to consider include Climate Pollution Reduction Grants, Environmental Justice, and technical assistance/capacity building funding to be awarded around August 2023.
• Explore the potential for partnerships and community organizations surrounding the training site that are concerned with community sustainability and resilience

Next Steps

• The next subgroup meeting will include presentations from local sustainability and resilience city partners
• The group will review additional climate related material for consideration
