

+100%

MORE OVERALL VIEW COMPARED TO PULL-OUT DRAWERS AND REMOVABLE SHELVES

Simply ingenious! Ingeniously simple: TANDEM turns one chaotic cupboard into two clear shelf units.

When the door is opened, the contents are divided into the door shelf unit (like a fridge) and the cabinet shelf unit, which even slides automatically towards you. The result: Everything is in sight! Everything is conveniently to hand!

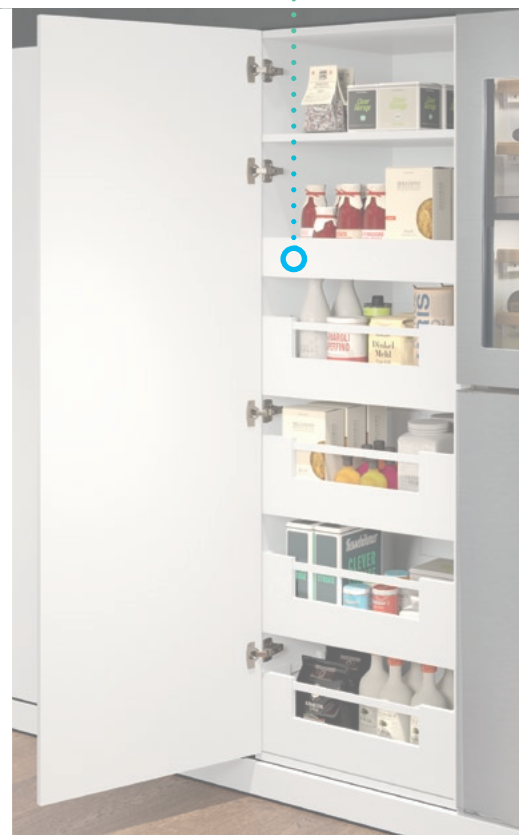

The division into cabinet and door shelf units doubles the visible area once opened.

So, there are 100% more stored goods on view than with pull-outs and removable shelves. **Divided cupboard – twice the overall view!**

Removable shelves

TANDEM

Pull-outs

CABINET WITH WOW!-EFFECT

All dry goods for a family of four on a floor space of 60x50 cm.

FITTING SYSTEMS // TALL CABINETS // TANDEM

WOW!

THE STORAGE CABINET
IN THE FRIDGE PRINCIPLE:
+100% MORE OVERALL VIEW!

FACTS & FIGURES

OVERVIEW & TRANSPARENCY
due to the clever division
into door shelf unit
and rear shelves

IT'S ALL IN THE PLANNING
Fridge and TANDEM
together make up the
storage centre

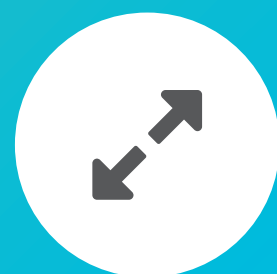

SINGLE-HANDED OPERATION
One hand is enough to make goods
stored at the back automatically
move to the front

**EMOTIONAL
MOTION SEQUENCE**
The front shelf unit swings out
with the door, whilst the rear shelf
unit comes towards the user

**WHOLE
WEEKLY SHOP**
of dry goods for a family
of four on a floor space
of 60x50 cm

**INDIVIDUAL
HEIGHT ADJUSTMENT**
Cabinet shelf unit and
door shelf unit can be easily
adapted to your needs

TANDEM & fridge side-by-side: A brilliant idea, two cabinets – with panorama view!

TANDEM and fridge are set out according to the same principle: door & cabinet shelf units complement each other perfectly. An arrangement that has proven itself a million times over.

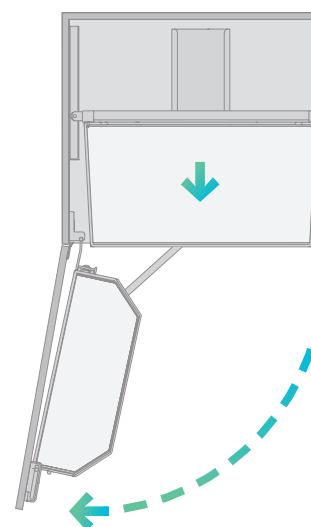

All dry goods for a family of four on a floor space of 60x50 cm.

2 STORAGE SHELF UNITS BEHIND ONE DOOR: **TANDEM**

The heights of the cabinet and door shelf units are adjusted **independently of each other**.

The shelves are **simply clipped on**.

The height of **all shelf units** can be repeatedly adjusted.

Everything is set in motion **with just one hand!** Looks fascinating and keeps everything neat and clear!

When opened, the cabinet shelf unit **automatically moves forward**.
