

K-LINE side

SOLUTIONS FOR THE UTILITY ROOM

K-Line side

VARIETY FOR THE HOUSEHOLD CUPBOARD

FLEXIBILITY, INDIVIDUALITY AND USER-FRIENDLINESS – these words aptly describe K-Line side. Whether for the utility room, cleaning cupboard, multi-purpose cupboard or in the kitchen, the functional and retrofittable solution for the tall and base cupboard always ensures optimum use of the available storage space.

■ Single-handed operation

Immediate access to the cabinet contents after opening.

■ Simply practical

The refrigerator shows the way. Direct access to the door.

■ Multifunctional

Whether utility room or sink cupboard:

K-Line side always offers the optimum storage space solution.

■ Simple height adjustment:

The door shelf can be easily adjusted to your needs.

■ Everything at a glance through

division into door shelf and shelf.

■ Individual

With its functional elements, K-Line side can be adapted for individual use.

K-LINE base

THE NARROW PULL-OUT

K-Line base

SPACE GAIN IN THE BASE UNIT

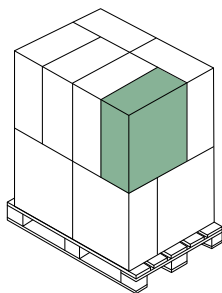

FOR BASE CABINETS WITH A WIDTH OF 20 TO 40 CM, THE K-LINE BASE FULL-EXTENSION RUNNERS ARE AVAILABLE FOR CABINET WIDTHS OF 200, 300 AND 400 MM.

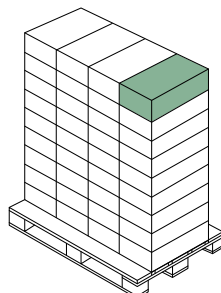

K-Line base comes with two directly connected shelves in proven Kesseböhmer quality and ensures that the user benefits from fully synchronised full-extension runners, quiet storage thanks to a closed base and a runner with damped self-closing mechanism.

The diagonal track shoring also ensures a high degree of lateral stability. A simple and precise 3-D adjustment system is used for the front.

The K-Line base unit pull-out is available as a particularly space-saving, partially assembled version, requiring only a third of the storage space needed for comparable cabinet pull-outs.

Typical 300 mm base unit

K-Line base 300 mm base unit

■ Clear and transparent

K-Line base brings the overview of the pharmacist's cabinet into the base cabinet.

■ Easy planning

With access from both sides without right/left variants, planning errors are a thing of the past.

■ Maximum convenience

Smooth running thanks to damped closing and synchronised full-extension runners.

■ The perfect joint pattern

With the easy-to-use 3D adjustment, the front is perfectly adjusted in no time.

■ Hygienic

The closed shelves prevent fall-through and are easy to clean.

■ Low logistics costs

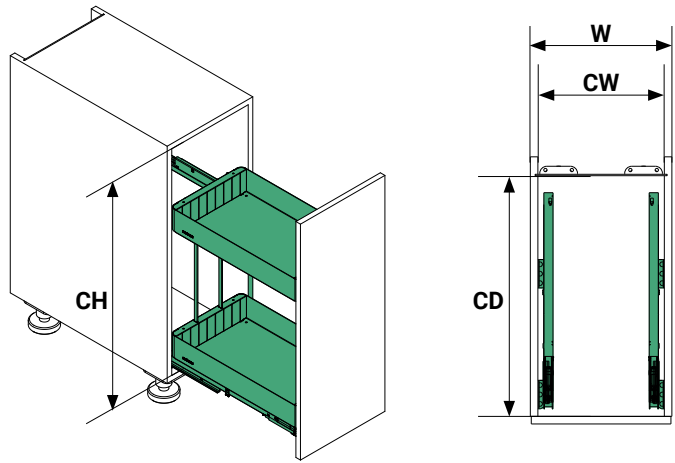

Three times less storage volume than comparable fittings.

NO.15 3D-X K-LINE

TURNS THE GAP INTO SPACE

 KESSEBÖHMER

NO.15 3D-X K-LINE

THE NICHE SHELF FOR THE KITCHEN

THE NO.15 3D-X K-LINE IS PART OF THE K-LINE FAMILY.

The particularly narrow pull-out is ideal for 15 cm wide base units and features tool-free front adjustment and front and rail ClickFixx. Ideal as a small and narrow food storage cupboard.

■ Modern design

Unadorned design to match modern box frames and ARENApure.

■ Optimum use of width

It gets the maximum storage space out of narrow cupboards. It can even accommodate 1.5-litre PET bottles.

■ Maximum convenience

Smooth running thanks to damped closing, synchronised full-extension runner.

■ Closes planning gaps

The No. 15 3D-X K-Line turns the gap into space and enables functional solutions for unusual row dimensions.

■ Quick and easy assembly

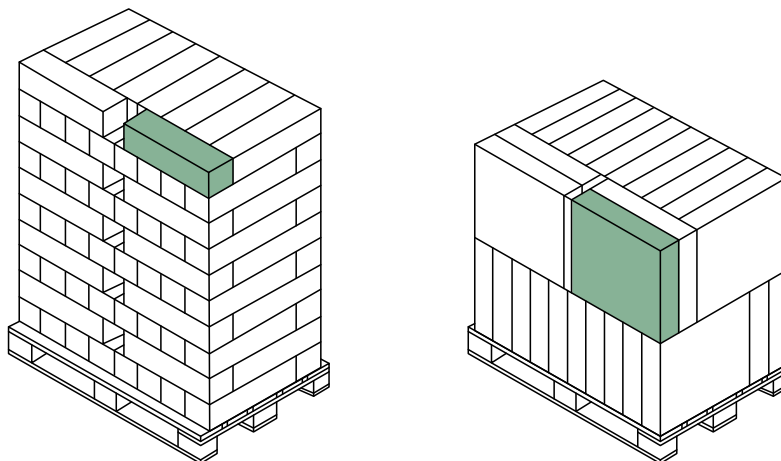

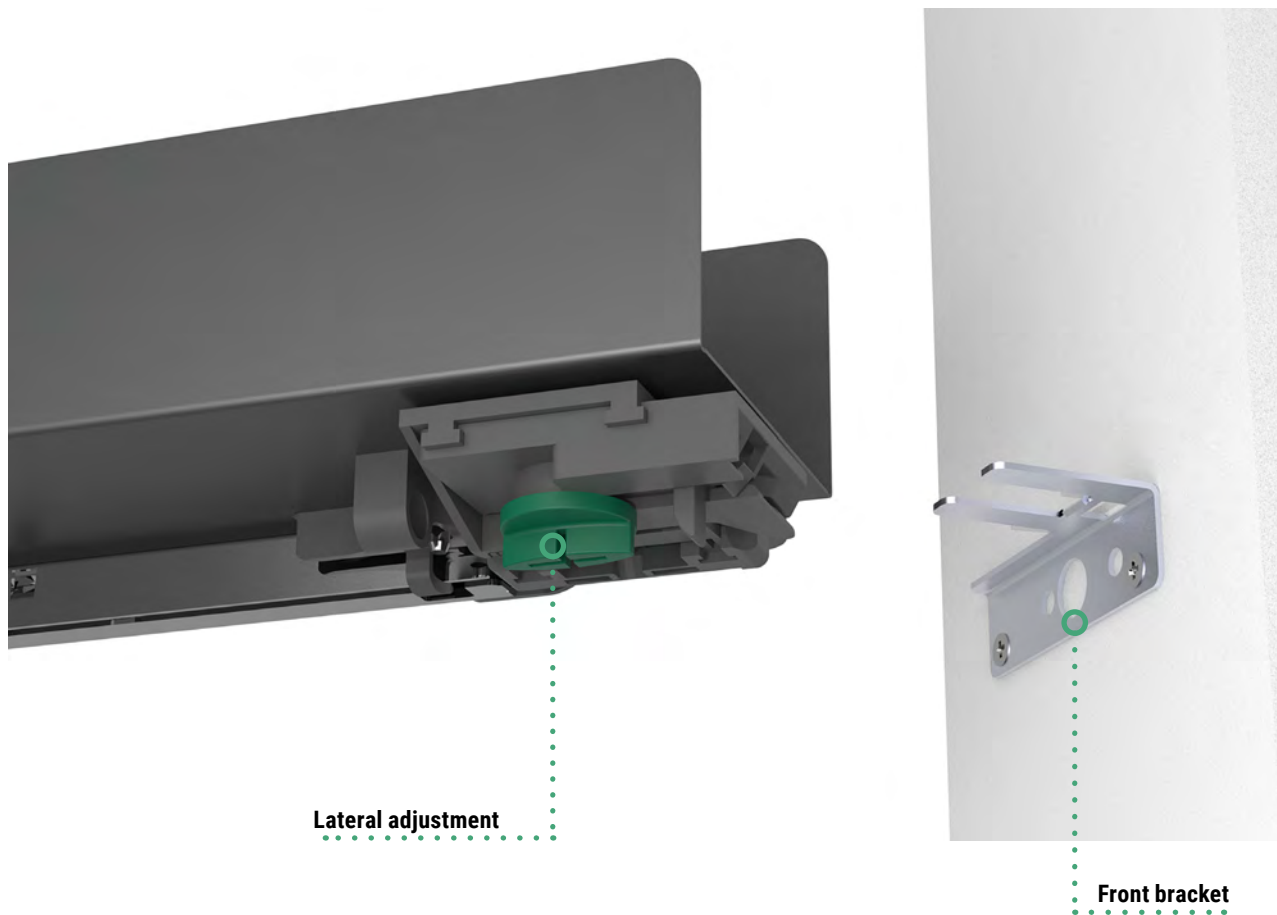

The refrigerator shows the way. The door in direct access.

■ Low logistics costs:

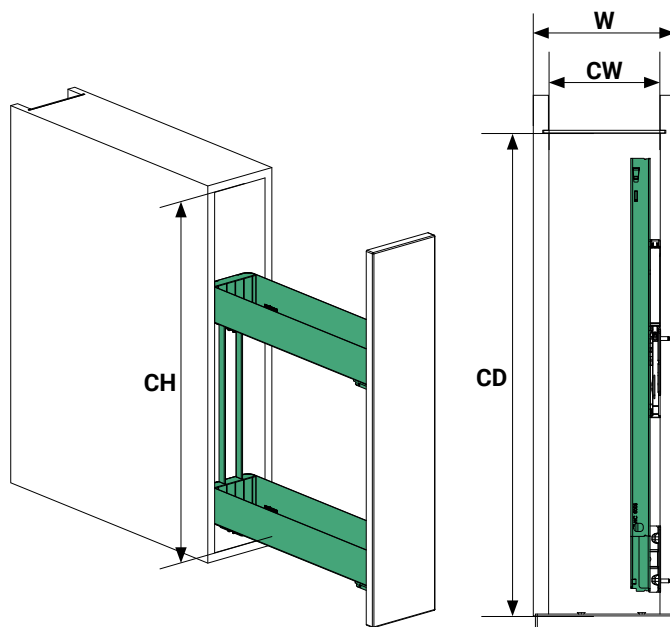

The packaging of the pull-out is hardly bigger than a shoe box.

ASSEMBLY IN RECORD TIME THANKS TO FRONT AND RAIL CLICKFIXX.

Large adjustment elements enable tool-free adjustment of the front without having to see the elements themselves. The adjustment is made directly - i.e. in real time - without counter and fixing screws. So when adjusting, the focus can be completely on the front.

Not much bigger than a shoebox. The new partially assembled No. 15 3D-X K-Line reduces the packaging size to a third. This means less transport and storage costs

Cabinet internal depth:	CD	≥ 489 mm
Cabinet internal height:	CH	≥ 525 mm
