Starwire Technologies (Starwire) will be installing fiber optic cables and equipment on your property. Starwire will contact Digger's Hotline upon receiving this signed agreement. Their trained locators will detect and mark the following lines within the selected work area:

- Electric Wire between the electric company's main line and your electric meter,
- Telephone Company owned lines to your service
- Natural Gas Line to your house
- Any village maintained sewer and water lines.

It is the responsibility of the homeowner/property owner to locate and expose any other facilities on the property along the proposed work route indicated by white flags, before project start date.

I _____, the property owner, acknowledge that the items checked "Yes" exist on the property described below and agree to locate and expose these items which exist along the proposed work route indicated by white flags. I further agree that Starwire is not responsible for damage to any facilities buried underground which are not marked and exposed along the white flagged work route.
