

Thank you JLB Shipping LTD

The Sick be Nourished Project team have been sending resources across many countries on the mother land and other places for years, for example, Ethiopia, Uganda as well as to beautiful Jamaica on a number of occasions. We are always served extremely well by CEO and Manager Beverly Johnson and her team at JLB shipping ltd based up in West Bromwich.

The service is excellent, very efficient and we have been supported in many ways by the company, to be able to send valuable resources to remote areas where there is a need to fill the gaps that exist for basic health care services.

JLB Shipping has made it possible to connect our communities so we can support each other when there is a need. JLB have gone above and beyond so we would like to extend our gratitude on behalf of those recipients and the entire SBN team. You are an asset to our community and we salute you.
