**SEAL. DEFEND. BREATHE.**  
TOTAL PROTECTION ROOFING SYSTEM®

# PROTECTION MADE SIMPLE

The more we think about your roof, the less you have to. Because when your home is protected on the outside, life is better on the inside.

# ADVANCED SCIENCE. DESIGNED TO LAST.

You see a beautiful roof. We see a world of science at work. A system of highly engineered components, designed, built and tested to deliver total protection under constantly changing conditions. It's advanced science—for performance and beauty designed to last.

Owens Corning created the Total Protection Roofing System® to make it simple to get everything you need in one complete system.

## SEAL.

Powerful two-part protection helps keep moisture away from the roof deck.

## DEFEND.

Three kinds of shingles work together for specialized protection on each part of the roof.

## BREATHE.

Proper ventilation helps create a balanced flow where warm, humid air is continually replaced by cool, dry air.

## + COMFORT.

Optimize value, comfort and performance by adding attic insulation to meet current Department of Energy recommendations.

**One System. One Brand. Total Protection.™**  
[OwensCorning.com/tprs](http://OwensCorning.com/tprs)

^ Excludes non-Owens Corning® roofing products such as flashing, fasteners and wood decking.

# YOUR PROFESSIONALLY INSTALLED TOTAL PROTECTION ROOFING SYSTEM® INCLUDES:

## SEAL.

### Self-Adhered Ice & Water Barrier

- Helps protect the roof where water has a tendency to collect or flow, including valleys, eaves, chimneys and skylights.
- Helps prevent damage associated with shingle blow-off, wind-driven rain and ice damming.

#### Recommended Product Options

- WeatherLock® Flex
- WeatherLock® G
- WeatherLock® Mat
- RhinoRoof® Granulated
- Titanium® PSU30

### Synthetic Underlayment

- Provides a water shedding barrier under shingles for your roof's last line of defense.
- Helps guard against damage from wind-driven rain.

#### Recommended Product Options

- Deck Defense®
- Titanium® UDL25, UDL30, UDL50
- ProArmor®
- RhinoRoof® U20

## BREATHE.

### Intake & Exhaust Vents

- Proper ventilation helps create a balanced flow where warm, humid air is continually replaced by cool, dry air.
- Helps manage attic temperature and humidity to help protect the interior components of your roof from heat and moisture damage and reduce the likelihood of problems such as ice damming.

#### Recommended Product Options

- VentSure® InFlow® Intake Vent
- VentSure® Rigid Roll Exhaust Vent
- VentSure® 4-Ft Strip Exhaust Vent
- VentSure® RidgeCat® Roll Exhaust Vent
- VentSure® Sky Runner LTE® Rolled Ridge Vent

## DEFEND.

### Starter Shingles

- Ensure a straight edge and effective seal along the eaves and rake—areas that are vulnerable to high winds.

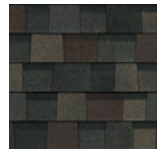

#### Recommended Product Options

- Starter Strip
- Starter Shingle Roll
- Starter Strip Plus

### Laminate Shingles

- Long-lasting protection and enhanced appearance for your roof's first line of defense.
- Provide protection and curb appeal in a wide array of colors and styles.

#### Recommended Product Options

- TruDefinition® Duration® Designer Color Collection
- Oakridge®
- TruDefinition® Duration®

### Hip & Ridge Shingles

- Add extra protection and stylish dimension along the hips and ridge—areas that are vulnerable to high winds.
- Designed to match and complement Owens Corning® shingles.

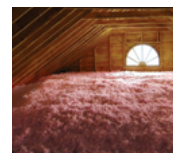

#### Recommended Product Options

- DuraRidge®† with SureNail® Technology
- RIZERidge®†
- DecoRidge®†
- ProEdge® Series†

## COMFORT.

### PINK® Fiberglas™ Blown-In Insulation

- Optimize value, comfort and performance by adding attic insulation to meet current Department of Energy recommendations.
- Creates a buffer between the comfortable air inside the living area and extreme heat or cold outside.

#### Recommended Product Options

- Owens Corning® PINK® Fiberglas™ Blown-In Insulation
