OUR GALAXY

The system of stars that includes our sun looks, in the night sky, like a broad band of light. We call this band the Milky Way. The idea of the whiteness of the Milky Way being similar to that of milk is much older than the English language, however. Galaxias, the Greek word for the Milky Way, was derived from the Greek gala, "milk." English galaxy, derived from Greek galaxias, was not used until the 19th century as a generic term for other star systems as well as the one in which we live.

ADDITIONALLY

We always have FOUR rotating
FEATURED FLAVORS!

We feature Premium Ice Cream made by Leiby's Dairy which is located 6in Tamaqua, PA. They have been making their delicious Ice Cream since 1928, and source all of their ingredients locally... especially the milk! We align perfectly with their friendly and family-run business practices and are proud to serve their ice cream at Athena's Kafenio.
