

HIGH-EFFICIENCY CENTRIFUGAL FEEDERS

OPTIMISE YOUR ASSEMBLY LINE WITH CENTRIFUGAL FORCE

- High-speed sorting
- Accurate alignment
- Careful handling
- Durable and dependable
- High-capacity automation

CUSTOM-BUILT BY GRUBER

Automated precision is our speciality. We make centrifugal feeders that fit perfectly into your assembly line, where they can sort and align up to 1,200 items per minute. Our high quality ensures a long lifetime during which you can depend on persistent performance.

- 300-1,200 items per minute
- Stepless speed regulation
- Suitable for items of all sizes
- Easy changeover
- Noiseless operation

TRUSTED BY THE MEDICAL INDUSTRY

Our centrifugal feeders are used in the medical industry to sort and align caps and other parts for medical devices and packaging, where precision and correct handling are vital factors.

PREMIUM-CLASS SERVICE

To ensure high production efficiency, we recommend a Gruber service agreement. Our skilled service personnel provide the best care for your machinery with respect for your production plan.

PUT US TO THE TEST

Contact us for a free laboratory test if you have an item you would like to have positioned better, quicker and with greater care. With 30-40 samples, we will carry out a test using our laboratory feeds and send you a report with recommendations for improvements.
