EXPLORE OUR FLEET OF PURPOSE-BUILT FISHING BOATS.

FROM CUTTING-EDGE TECHNOLOGY TO VERSATILE DESIGNS,

FIND THE PERFECT VESSEL TO ENHANCE YOUR FISHING EXPERIENCE.

## **SHARE YOUR ADVENTURE WITH STYLE, PERFORMANCE, AND THE THRILL OF THE CHASE.**

### **Our Mission...**

At Savannah Boat Works, a great deal of thought goes into each model we produce before the first piece of fiberglass is cut. The idea of starting a boat building business arose from the owner's personal experiences with various boats over the years. One consistent theme with each boat available on the market seemed to be that many models are exclusively geared towards performing a specific function at the expense of sacrificing versatility and functionality in others. For years, the lack of versatility in boat designs has made it difficult to give the needs of everyone in the family equal attention.

Savannah Boats are thoughtfully designed to accomplish as many tasks as possible while considering the interests of your entire family. Building a versatile, all in one model is our top priority. Each model is designed to cover all the bases from a relaxing cruise to family day at the sandbar while easily switching gears to serious fishing outings from the backwater to the blue water.

### **Built Right...**

While building a top quality versatile boat might begin with the correct design attributes, it certainly doesn't end there. At Savannah Boat Works, we understand that today's boat buyer expects a boat made with top of the line materials utilizing state of the art construction standards and the highest quality hardware. Every Savannah Boat is built to meet these criteria and made to last for generations.

All Savannah Boat models are hand crafted with state of the art materials including 100% composite construction. Every boat is fitted with foam flotation for the safety of your family and will include high quality hardware across every corner of the build process.

## A Model for All Waters...

While we strive to make each of our models as versatile as we can, the popularity of our earliest offerings quickly expanded to include a much wider spectrum than a single boat could ever cover. Subsequently, we've continued to develop our model lineup to include something for everyone regardless of where your adventure is meant to take you.

Whether you call the backwater marsh or a quiet cove, or the coastal inland waterway to distant blue waters offshore home

- **Savannah Boat Works** builds a model to meet your needs. We personally encourage you to take the time to get to know the Savannah Fleet.

*SAVANNAH*  
210x

**Savannah 210x** | Hybrid Inshore

# Savannah 210x | Hybrid Inshore

Climb aboard the Savannah 210x, a bay boat designed with a V-bottom hull, prioritizing fishing versatility and exceptional performance in challenging waters. This bay boat exceeds expectations in its price range, offering more features than the average boater anticipates in today's market.

210x IS	21' 8"	8' 6"	13"	72 gal.	250
HYBRID	LOA	Beam	Draft	Fuel Capacity	Max HP

## Designed for the ultimate fishing experience

Notable specifications include a draft of 13 inches, a deadrise of 14.5 degrees, a dry weight of 2,400 pounds, and a fuel capacity of 65 gallons. This combination allows the boat to effortlessly navigate shallow backwaters with the same ease and comfort as it handles nearshore wrecks and reefs. Discover a Hybrid Inshore model that seamlessly balances performance and practicality – the Savannah 210x awaits your next aquatic adventure.

### Key Features:

- Deluxe Leaning Post
- Diamond Stitch Cushions
- Hydraulic Steering
- Premium Stereo w/Two (2) Speakers
- Expansive Bow Storage
- Easy Access Console Door
- LED Nav Lights
- Raw Water Washdown
- Forward Console Seat w/Backrest
- Fiberglass Hatches
- Pull-up Cleats
- EVA Foam Bolsters
- Stainless Boarding Ladder
- Trolling Motor Pre-wire
- Livewell Plumbing
- Rod Holder / Cup Holder
- Leaning Post Storage Box

### Available Options:

- Choose your Hull COLOR
- Pick your Power 150 HP to 250 HP
- Simrad or Lowrance Electronics
- Package Matching Fiberglass
- Hardtop w/ Integrated Spread Light
- Canvas T-Top w/ integrated Spread Light
- Powder Coat Package
- Power Pole
- Trim Tabs
- Additional Two (2) speakers
- Underwater Lights
- Aft Backrest
- Aft Cushions

### Unmatched Performance

Effortlessly navigate shallow backwaters or conquer nearshore wrecks and reefs with ease. This hybrid inshore strikes the perfect balance between high-performance and practicality.

### Premium Upholstery

High-Quality Materials: We use top-tier materials such as marine-grade vinyl, UV-resistant thread, and foam padding that can resist mold and mildew.

### Feature-Packed Excellence

Uncover a world of features that go beyond the ordinary. The Savannah 210x IS offers more than you'd expect, setting a new standard for bay boats in today's market.

### Family-Friendly Features

Spacious seating, ample storage, and a user friendly layout make our 210x IS perfect for families. Pack a picnic, cast a line, or simply enjoy the sun – the possibilities are endless.

**SAVANNAH**

**SAVANNAH**  
SS21

**Savannah SS21 – Duck Edition** | Hybrid Skiff

# Savannah SS21 – Duck Edition | Hybrid Skiff

The Savannah **SS21 Duck Edition** was purpose-built to meet the specific needs of duck hunters, providing features that enhance stealth, maneuverability, and convenience for hunting in marshes, swamps, lakes, and rivers.

The shallow draft of our Hybrid Skiff is the perfect platform to navigate through shallow waters and marshy areas where waterfowl often gather.

<b>SS21</b>	<b>21' 4"</b>	<b>8' 6"</b>	<b>9"</b>	<b>32 gal.</b>	<b>150</b>
SKIFF	LOA	Beam	Draft	Fuel Capacity	Max HP

## Gear up, blend in, and let the hunt begin!

The Savannah **SS21 Duck Edition** was designed with a low profile to minimize visibility and help hunters blend into their surroundings. The natural colored gelcoat and upholstery help the boat blend in with the natural environment, making it less noticeable to ducks. These design features are crucial for staying concealed from ducks and other waterfowl. The 8' 6" beam also provide stability for hunters who may need to stand, move around, or shoot from the boat.

**Premium Upholstery**  
High-Quality Materials: We use top-tier materials such as marine-grade vinyl, UV-resistant thread, and foam padding that can resist mold and mildew.

**Positive Foam Flotation**  
Flotation foam is strategically placed within the hull and other compartments of the boat to displace water and provide buoyancy.

**LED Navigation Lights**  
LED lights are known for their energy efficiency, longer lifespan, and durability. They consume less power, making them more environmentally friendly and cost-effective for boaters.

**Self Bailing Deck**  
The purpose of a self-bailing deck is to automatically drain and expel water that may come on board, preventing the accumulation of water on the deck and ensuring a safer and drier environment for passengers.

*SAVANNAH*  
SS19

**Savannah SS19** | Hybrid Skiff

# Savannah SS19 | Hybrid Skiff

Our 190IS is perfect for the novice boater that is ready to get out on the water in style. Built with the fisherman in mind, this model offers performance, stability, and every fishing amenity you need for a day out chasing fish. Our deep V hull design, attention to detail, fit and finish set this model set it apart from the competition.

<b>SS19</b>	<b>19' 6"</b>	<b>8' 6"</b>	<b>9"</b>	<b>32 gal.</b>	<b>115</b>
SKIFF	LOA	Beam	Draft	Fuel Capacity	Max HP

## Reel in the thrill of the catch!

Our SS19 is built with the family and fisherman in mind. Versatility is key. We offer a full cushion package that is removable converting this model from family cruising to a fishing machine. Rod holders are strategically placed throughout and options to add even more. 9" draft allows access to skinny waters and perfect for sandbar fun with the family.

### Key Features:

- Ski Tow-bar

### Premium Upholstery

High-Quality Materials: We use top-tier materials such as marine-grade vinyl, UV-resistant thread, and foam padding that can resist mold and mildew.

### Positive Foam Floatation

Floatation foam is strategically placed within the hull and other compartments of the boat to displace water and provide buoyancy.

### Leaning Post Storage

This ample storage compartment beneath the leaning post is frequently utilized for storing a variety of items, including fishing tackle, life jackets, and other essential boating gear.

# Gelcoat | Available Color Options

Choose a color that makes your Savannah stand out. Savannah Boat Works uses only premium marine grade gelcoat as it offers several benefits for boat surfaces and finishes. Here are some key advantages:

**UV Protection:** Premium gelcoats are formulated to provide excellent UV resistance. This helps protect the boat's surface from the damaging effects of prolonged sun exposure, preventing fading and degradation

**Easy to Clean:** The smooth and glossy surface created by premium gelcoats makes it easier to clean the boat. Dirt, salt, and other contaminants are less likely to adhere to the surface, simplifying maintenance.

**Repairability:** Premium marine gelcoats are often designed to be repairable. This means that if the surface gets damaged, it can be repaired without compromising the overall appearance or performance.

**Professional Finish:** Boats coated with premium gelcoat often have a professional and polished appearance. This not only enhances the owner's pride but can also contribute to the resale value of the boat.

WHITE GELCOAT

GREY GELCOAT

SEAFOAM GELCOAT

LIGHT GREEN GELCOAT

CAROLINA BLUE GELCOAT

COBALT BLUE GELCOAT

BLACK GELCOAT

\*Gelcoat color swatches shown are approximate. Printed colors are not an exact match for gelcoat colors and are shown for representation only.

Savannah Boat Works does not guarantee or warranty colors or shades to match the representation here. Please visit an Authorized Savannah Boat Works Dealer for actual color samples.

## Premium Upholstery | Comfortable, Stylish, Durable

Premium marine-grade upholstery offers a range of benefits designed to withstand the unique challenges of the marine environment. Here are some key advantages:

**Water Resistance:** Marine-grade upholstery is typically water-resistant or waterproof. This feature helps prevent water absorption, which is crucial for maintaining the integrity and durability of the upholstery in a marine setting.

**Mold and Mildew Resistance:** The materials used in premium marine upholstery often have antimicrobial properties, making them resistant to mold and mildew. This is especially important in the humid and damp conditions common on boats.

**UV Resistance:** Exposure to sunlight can cause fading and deterioration of upholstery materials. Premium marine-grade fabrics are designed to resist UV rays, helping to maintain the color and appearance of the upholstery over time.

**Saltwater Resistance:** Marine environments expose upholstery to saltwater, which can be corrosive. Premium marine-grade materials are resistant to the corrosive effects of saltwater, ensuring longevity and performance.

**Quick Drying:** In a marine environment, upholstery may get wet due to splashes, rain, or cleaning. Premium marine-grade materials are designed to dry quickly, preventing the growth of mold and ensuring a comfortable seating experience.

**Stain Resistance:** Accidental spills, stains, and exposure to various substances are common on boats. Marine-grade upholstery is often treated to resist stains, making it easier to clean and maintain.

**Abrasion Resistance:** Boating activities can subject upholstery to abrasion from constant movement and contact. Premium marine-grade fabrics are often abrasion-resistant, reducing wear and tear over time.

**Easy Maintenance:** Marine-grade upholstery is often low-maintenance. It can be easily cleaned with mild detergents or specialized marine cleaners, making it convenient for boat owners to keep their upholstery in top condition.

### What does this mean to you?

Savannah Boat Works uses premium marine-grade upholstery to ensure that boat interiors remain comfortable, stylish, and durable, even in challenging marine conditions.

## SAVANNAH BOATS WAS FOUNDED ON A DREAM

Savannah boats are built better...

Savannah Boats was founded on a dream, born from the owners personal pursuit of his own perfect boat – a Hybrid fishing boat that could be an inshore and offshore fishing boat or family boat, crafted in every detail to match the boat he had envisioned for years. Now occupying a 20,000 square foot facility in North Carolina.

Much of what we do is inspired by our families and as boaters ourselves, we understand, that versatility is key. Therefore, we created a hybrid boat that could be inshore & offshore, family or fishing, and affordable. Here at Savannah boats we like to say, "It's not my boat, it's not your boat, it's OUR boat."

### Why you should choose a Savannah Boat?

Savannah boats are built better. Our vessel features state of the art materials with no wood, 100% composite hull construction & foam floatation. The V-hull entry and soft chines make for a smooth ride separating Savannah boats from its competition.
