Welcome to the office of Dr. Eva Boldridge

Dr. Eva Boldridge is a specialist in the field of Prosthodontics and Maxillofacial Prosthodontics/Dental Oncology. She received her Dental degree from the Medical University of South Carolina, her prosthodontics certificate from the University of Alabama at Birmingham, and her certificate of Maxillofacial Prosthodontics and Dental Oncology from MD Anderson Cancer Center. Dr. Boldridge is a member of the American Dental Association, American College of Prosthodontics, Texas Dental Association, Greater Houston Dental Society, and the Houston Minority Dental Society.

A prosthodontist is a dentist who has an additional three years of training in advanced dental restorations. In addition, Dr. Boldridge also treats patients with special oral needs who are currently, or have undergone cancer treatment. Dr. Boldridge believes in making a beautiful, healthy smile for her patients. In certain situations, Dr. Boldridge will work with other physicians and dental specialists to achieve the most optimal treatment for her patients

Your first appointment with Dr. Boldridge will be a consultation exam. During this exam, diagnostic procedures will be done (extensive oral evaluation, molds of your mouth, bite records, x-rays, and photos). If you have recent x-rays (within the last 3-6 months), Dr. Boldridge will work with your dentist to have a copy sent to her.

Dr. Boldridge's office is located near the intersection of Voss and San Felipe in the offices of: **Post Oak Dental**
7700 San Felipe, Ste. 100, Houston, TX
77063.
