Index of tv series prison break

Prison Break is a US crime drama TV series created by Paul Scheuring and broadcast on Fox from August 29, 2005, until May 30, 2017. The show revolves around two brothers, Lincoln Burrows (Dominic Purcell) and Michael Scofield (Wentworth Miller), with Lincoln facing the death penalty for a crime he didn't commit, while Michael devises an elaborate plan to help his brother escape prison and clear his name. Prison Break has garnered numerous accolades, including the 2005 Golden Globe Award for Best Television Series Drama and the 2006 People's Choice Award for Favorite New TV Drama. The show's success has spawned various spin-offs, such as a video game, mobile webisodes, an official magazine, and a novel. The series' fourth season concluded with six episodes, followed by two additional episodes that were later adapted into the standalone feature "The Final Break." In 2017, Fox announced a nine-episode fifth season revival, which premiered on April 4 and concluded on May 30. Although season six was initially in development, it was ultimately cancelled in August 2019. The second season of Prison Break picks up eight hours after the escape, focusing on the eight fugitives as they split up and try to achieve their individual goals. With authorities hot on their heels, each inmate pursues a different path. Brad Bellick gets fired from the prison and becomes obsessed with catching the escapees for the reward money. Meanwhile, some of the inmates reunite in search of a large sum of money buried by another Fox River inmate. Federal agent Alexander Mahone is tasked with capturing the fugitives, but it's revealed he's working for The Company, which wants all eight men dead. As Sara mourns her father's death, she joins forces with Michael and they try to take down President Reynolds, a member of The Company. To ensure their safety, Sara allows herself to be arrested and faces trial. Later, testimony from former Secret Service agent Paul Kellerman exonerates Lincoln and Sara. Half the escapees are killed or recaptured, but Michael and Lincoln make it to Panama. The third season follows Michael inside Sona prison in Panama, while Lincoln is on the outside trying to rescue his loved ones. The Company wants Michael to break James Whistler out of Sona, and he's aided by Gretchen Morgan, who kidnapped his son LJ and Sara. Sucre gets a job at the prison to help with their escape plan. As tensions rise, Lincoln tries to rescue Sara and LJ, but is met with a gruesome surprise. The fourth season centers around a team recruited by Homeland Security agent Don Self to obtain Scylla, which they initially believe is The Company's "black book". However, it's later revealed to contain information on various operations. The advanced renewable power cell isn't even the main focus here. Instead, we're diving into the world of Prison Break, where the team's got their hands on Scylla, a valuable asset that everyone wants. They've been trying to get it for ages, and it seems like they finally did in Miami. Throughout this half-season, stuff goes down - Sara's found alive, Bellick bites the dust, and Self is revealed as a double agent. The storyline gets pretty intense when Lincoln joins forces with The Company to get Scylla back, while Michael deals with a hypothalamic hamartoma that needed some medical attention. It turns out his mom, Christina, was an agent of The Company who had her own plans for selling Scylla. But in the end, they manage to recover it and take down The Company. Sara even gets to kill off Christina, which is probably a pretty satisfying moment for viewers. As we head into the series finale, things get wrapped up with Sara buying flowers in Panama before visiting Michael's grave. In the final episode, Prison Break: The Final Break, we see Sara getting locked up for killing Christina, while The General and T-Bag are next door trying to make her life harder. Michael comes up with a plan to break her out, but ends up sacrificing himself because he knows his time is running out. This storyline's got some serious drama going on, with the whole team trying to stay alive after everything that went down. But it seems like Prison Break isn't done yet - there's been talk of a revival, and even though Michael's dead, they're working on a way to bring him back into the story. The third season of Prison Break introduces four new characters, with two being prisoners at Penitenciaría Federal de Sona.[20] Most cast changes were due to character deaths. Creator Paul Scheuring explained that killing off main characters makes the audience more fearful for the protagonists and reduces storylines.[21] The only characters to appear in every episode are Michael Scofield and Lincoln Burrows, played by Dominic Purcell and Wentworth Miller, respectively. Purcell's Lincoln is a high school dropout and convicted felon wrongly accused of murdering Terence Steadman, brother of the US Vice President. He was cast three days before production started.[22] Scheuring initially doubted Purcell as a fit for the role due to his initial appearance, but Purcell won over the part with his acting. Miller's Michael is Lincoln's brother and structural engineer who devotes himself to freeing his brother from prison. Many actors auditioned for the role, but Miller impressed Scheuring with his performance.[22] Amaury Nolasco plays Fernando Sucre, a cellmate of Michael's at Fox River State Penitentiary. Initially, his storyline focused on reuniting with his fiancée. Robert Knepper portrays Theodore "T-Bag" Bagwell, a cunning and manipulative psychopath who appears in all five seasons. Robin Tunney plays Veronica Donovan (seasons 1-2), Michael and Lincoln's childhood friend and lawyer for their case. # * Peter Stormare portrays John Abruzzi, the leader of a Chicago mafia, who becomes a prominent figure at Fox River State Penitentiary. * He appears regularly in the first half of season 1 and makes selected appearances towards the end of the first season and the beginning of season 2. * Marshall Allman plays Lincoln "L. J." Burrows Jr., the teenage son of Lincoln Burrows, who is greatly affected by his father's death sentence. * Wade Williams stars as Brad Bellick, the captain of Fox River's correctional officers, who initially didn't want to portray the role due to its despicable nature. * Sarah Wayne Callies portrays Sara Tancredi, the prison doctor at Fox River and daughter of Governor Frank Tancredi, who becomes Michael's ally during his escape. * Paul Adelstein plays Paul Kellerman, a Secret Service agent working for the Vice President to ensure the execution of Lincoln Burrows. * Rockmond Dunbar stars as Benjamin Miles "C-Note" Franklin, who blackmails Michael at Fox River to join his escape team. * William Fichtner portrays Alexander Mahone, an FBI agent tasked with locating fugitives, who becomes intellectually matched with Michael. * Chris Vance plays James Whistler, a prisoner at Sona who appears as a major character in season 3. * Danay Garcia stars as Sofia Lugo, introduced as Whistler's girlfriend in season 3 and later dating Lincoln Burrows. Prison Break: A Concept Born from an Idea The concept of Prison Break was initially suggested by producer Dawn Parouse to showrunner Paul Scheuring. The idea involved a man deliberately getting himself sent to prison in order to help someone escape. Scheuring thought it was a good idea but was initially stumped as to why someone would embark on such a mission. He came up with the story of a wrongfully accused brother and began working on the plot outline and character development. The show was pitched to Fox Broadcasting Company in 2003, but they turned it down due to concerns about its long-term viability. Despite initial rejections from other channels, Prison Break eventually gained traction as serialized prime-time television series like Lost and 24 gained popularity. Fox backed the production in 2004, with Scheuring writing the script just over a year before filming began. The pilot episode was filmed after Scheuring wrote the script, and Joliet State Prison became the set for Fox River State Penitentiary. The majority of the first season was filmed on location in and around Chicago, while scenes set in Lincoln's cell, the infirmary, and the prison yard were shot on location at the actual prison. The production crew faced challenges due to Joliet Prison's notorious past, with one crew member refusing to enter John Wayne Gacy's former cell due to alleged paranormal activity. The show's sets were built around the prison's existing structures, including three-tiered cell blocks that had been enlarged for actor and camera use. Exterior scenes were filmed in various locations across Illinois and Canada, with a production budget of \$2 million per episode totaling \$24 million in 2005. Prison Break was renewed for a second season, which resumed filming in Dallas, Texas, in June 2006. Prison Break's filming locations spanned various American towns within a 30-minute radius of Dallas, with notable spots including Little Elm, Decatur, Mineral Wells, and McKinney. These settings were utilized to represent diverse urban environments.[34] The show invested heavily in Texas during its second season, surpassing \$50 million in spending.[35] As the series progressed, production shifted to Pensacola, Florida, for the final three episodes of the second season, aiming to recreate Panama's atmosphere.[37] Each episode required eight days of filming and contributed approximately \$1.4 million to the local economy.[38] The third season was shot in Dallas with a budget of \$3 million per episode.[39] Notably, exterior scenes featuring Lincoln and Gretchen's escape from the Panama jail were filmed in the historic Casco Viejo quarter of Panama City.[40] Subsequently, principal photography for the fourth season relocated to Los Angeles, California.[41] Ramin Djawadi composed the Prison Break score, which featured prominently throughout the series. The theme music, as well as incidental music for each episode, was created by Ramin Djawadi. A compilation of the first two seasons' scores was released on August 28, 2007, in the form of the "Prison Break: Original Television Soundtrack".[42] In Europe, different theme songs were used to localize the show, with Faf Larage's song "Pas le temps" being a notable example. The series employed a serialized story structure, mirroring that of its companion show 24. Despite declining ratings, the cancellation was attributed by Fox executives to creative reasons, rather than financial performance.[44] The show's finale received praise from critics and fans alike, with Kevin Reilly describing it as a "hell of an idea".[44] Michael Scofield's iconic tattoo, designed by Tom Berg and created by Tinsley Transfers, required approximately five hours to apply. This distinctive design element became an integral part of the show's visual identity. Prison Break premiered on August 29, 2005, with a strong debut performance, attracting an estimated audience of 10.5 million viewers.[46] The premiere ranked first in both demographics, and positive reviews from critics followed, praising its suspenseful storytelling and authentic look.[47][48] The second season of Prison Break received mixed reviews from critics and audiences alike. While some praised its entertainment value and storytelling, others criticized the show's plot for becoming too convoluted. Despite this, the premiere of the second season drew an average of 9.4 million viewers, with the episode "Chicago" obtaining its largest audience on original airdate. However, the third and fourth seasons received more negative reviews, as the show's focus shifted away from its origin story. Season five also received mixed reviews, with a critical consensus stating that while the show recaptured some of its old urgency, it couldn't overcome its dull plot and reliance on familiar faces and action sequences. According to Nielsen Media Research, Prison Break averaged 9.3 million viewers per week during its second season, which was an improvement over its first-season average but not enough to match the success of its premiere. The show's ratings continued to decline in subsequent seasons, with some episodes receiving low viewership and mixed reviews from critics. The show gained renewed popularity after becoming available on streaming platforms like Hulu and Netflix, where it attracted a large audience. According to Nielsen Media Research, Prison Break was streamed for 758 million minutes during the summer of 2024, making it one of the most-streamed programs of the year. Prison Break has been a massive hit since its addition to Netflix in late July 2024. The series has garnered an impressive billion minutes of viewing time, making it the most-streamed television series from August 26 to September 1, 2024. Hispanic viewers have remained a key demographic, accounting for nearly one-third of the audience. The show's popularity shows no signs of slowing down, with seasons one, two, and three reappearing on Netflix's English-language TV chart in the week leading up to September 15, 2024. Season one ranked No. 3 with 4.7 million views, followed by season two at No. 7 with 2.8 million views, and season three at No. 10 with 1.7 million views. However, concerns have been raised about the show's content, particularly in France where the broadcasting watchdog has complained that some episodes exceed the allowed amount of violence for its rating. In the United States, the Parents Television Council expressed similar concerns about graphic content aired during the 8:00 pm ET time slot. Despite these concerns, Prison Break has received widespread acclaim and numerous awards and nominations. The series won the 2005 People's Choice Award for Favorite New TV Drama and was nominated for several other awards, including two Golden Globe Awards and a Primetime Emmy award. In December 2006, Robert Knepper was nominated for the Satellite Award for Best Actor in a Supporting Role in a Series, Mini-Series or Motion Picture Made for Television. However, controversy arose when Donald and Robert Hughes filed a lawsuit against Fox Broadcasting Company and the show's creators, alleging copyright infringement over their manuscript about a prison break at a juvenile facility. Prison Break premiered on various television networks worldwide and gained significant popularity. The TV show "Prison Break" episodes have been released on various platforms. Starting from May 9, 2006, episodes were available for purchase online through the iTunes Store. During the second season, Fox began streaming the current episode for free via more than 50 websites and its own network within the United States. The first three episodes of the second season were commercial-free and available for a week after their TV broadcast date. Later in October, due to a three-week hiatus prompted by baseball playoff games, Fox started streaming past episodes on MySpace and other network-owned station websites. This allowed viewers to watch these episodes for free while still including commercials. A spin-off series called "Prison Break: Proof of Innocence" was produced exclusively for mobile phones and first broadcast to Sprint customers in April 2006. The show also featured a series of six online shorts, known as "Prison Break: Visitations," which were distributed on the Internet and available for free from iTunes. Additionally, there was development of another full spin-off series titled "Prison Break: Cherry Hill." This planned to revolve around an upper-middle-class housewife and her time in a women's prison but never went into production. The Prison Break franchise was created by Paul Telford and published by Simon & Schuster, with its first book released on May 8, 2007. In September 2009, Insight Editions published a companion book featuring production photography, with writers Christian Trokey and Kalinda Vazquez, as well as Paul Scheuring and Matt Olmstead, commenting on the show's four-season run. In 2019, an official manga adaptation of the series became available on the online service Piccoma, done by Hikosuke Soyama and supervised by Twentieth Century Fox. A live feature called "Prison Break LIVE!" was also created, which toured the US, Australia, UK, China, Germany, and Mexico from 2006 to 2008. A mobile game for J2ME was released in 2008, but a video game based on Prison Break that was in development for PlayStation 3 and Xbox 360 was cancelled. The game's developer, ZootFly, found a new publisher and restarted the project, releasing the game on March 30, 2010. The Russian adaptation of the series premiered on Channel One in September 2010, using many features from the original series but also introducing new storylines and characters that reflect Russian reality. In November 2023, it was reported that a reboot written by Elgin James for Hulu was in development. **Prison Break Updates** * In January 2017, Fox announced that "Making History" and "Prison Break" would premiere in 2009 and 2017 respectively. * In January 2018, it was reported that Fox was developing a new iteration of "Prison Break". * By August 2019, Fox stated they had no current plans for more "Prison Break" or "24". * In November 2020, Wentworth Miller expressed his reluctance to reprise his role in "Prison Break", citing a desire not to play straight characters. * In May 2006, it was announced that the TV series "Prison Break" would film in Dallas, Texas. **Reboot and Revival** * By June 2015, Fox had greenlit a limited series revival of "Prison Break". * A sequel limited series was officially confirmed by August 2015. * By January 2016, it was announced that the revival would feature an international setting and returning cast members. * In March 2016, Sarah Wayne Callies was confirmed to reprise her role in the event series. * Robert Knepper, Rockmond Dunbar, and Amaury Nolasco were also set to return for the revival. **Filming Locations** * By April 2016, it was announced that "Prison Break" would film in Morocco, specifically in Rabat, Casablanca, and Ouarzazate. * The series had previously filmed in various locations, including Dallas, Texas. The article discusses various sources that report on the TV show "Prison Break" and its associated events. * An audio commentary from episode "Riots, Drills and the Devil (Part 1)" describes the show as diving into dark themes. * Reviews and articles from reputable publications such as The Age, Chicago Tribune, Sydney Morning Herald, IGN, and Time magazine praise the show's unique take on prison drama. The text also mentions: * An interview with John Wayne Gacy, a notorious serial killer, which is compared to the character of Michael Scofield in Prison Break. * An article about the filming of Season 2 of "Prison Break" in Dallas, Texas. * News articles and reviews from other publications that discuss the show's success, its impact on the entertainment industry, and the cast and crew's experiences working on the show. Overall, the paraphrased text highlights the widespread media attention given to the TV show "Prison Break" during its run. "Prison Break", an American television series, premiered in 2005 on Fox. The show received positive reviews from critics and audiences alike, with Entertainment Weekly praising its innovative storytelling and Variety commending its strong characters. The show was a ratings success, ranking among the top shows for several seasons. It also won awards, including several Primetime Emmy Awards. However, by the end of its fifth season in 2009, the show's ratings had declined significantly. Over the years, opinions about the show have been mixed. Some critics, like Den of Geek's Jamie Andrew, felt that it showed wasted potential due to poor writing and pacing. Others, such as CinemaBlend's Nick Venable, included it on lists of great shows that went downhill. In recent years, "Prison Break" experienced a resurgence in popularity, with its fifth season ranking high on streaming platforms like Netflix and Nielsen. The show has also been renewed for an upcoming sequel series. Today, the show is considered a cult classic, with its unique blend of action, drama, and suspense still captivating audiences. Recent streaming ratings have revealed that 'Prison Break' is currently ranking as the number one overall show on various platforms, including The Hollywood Reporter and Deadline Hollywood. The show has maintained its dominance in the streaming charts for several weeks, with some outlets reporting that it has over 1 billion minutes viewed. In contrast, other shows like 'Emily in Paris', which released a half-season episode, opened lower than expected. On the other hand, Netflix's action series 'Rebel Ridge' continued to hold strong at the top of the weekly streaming charts. Other notable mentions include Amazon Prime Video's 'Rings of Power', which debuted its second season and ranked second on Nielsen's streaming charts, with over 1 billion minutes viewed. The show also broke viewership records, surpassing some other popular shows in terms of total minutes watched. Interestingly, there was a negative reaction to the show "Worst TV Show of the Week" by Parents Television Council, released in 2006, which criticized Prison Break for being too violent and disturbing. In 2006, Prison Break became a dominant force in television, airing to large audiences worldwide. The show's popularity led to a variety of media releases, including DVD and Blu-ray sets, which were widely available on online marketplaces like Amazon. The show's success was marked by high viewership numbers, with some episodes attracting over 59,000 viewers in Hong Kong alone. The show also spawned various spin-offs and merchandise, cementing its place as a cultural phenomenon. Additionally, Prison Break was one of the first TV shows to be released on Blu-ray, indicating its popularity and demand for higher-quality video formats. The text appears to be a collection of citations and references related to the TV show "Prison Break." It includes information about various releases and adaptations of the show, such as DVD sets, video games, and a manga series. Some notable points mentioned in the text include: * The show's initial release in 2005 and its subsequent success. * The creation of a spin-off game titled "The Conspiracy" for PlayStation 3, which was released in 2010. * A Russian adaptation of the show, titled "Escape," which is currently in development. * An upcoming remake or spin-off series based on the show, announced by Entertainment Weekly in November 2023. Overall, the text seems to be a collection of references and citations related to various aspects of the TV show "Prison Break" and its adaptations. Prison Break is a media-rich topic with associated quotes found on Wikiquote. The show's page can be accessed on IMDb. According to Wikipedia, the article's ID is 1252023326. You can stream Prison Break via various platforms. For HD quality, you'll need to pay \$17.91. Alternatively, you can purchase the show for \$15.99. As of October 24, 2024, at 9:45:26 PM, we've checked over 233 streaming services for availability. If there's an issue with your stream, feel free to let us know!
