[yobhannanzozagatu](#) They have a fun drawing of a balloon bouquet. You may download your free printable tags using the form at the bottom of this page. Materials: Printer (you may also bring the PDF to a copy store near you- I used Fed Ex) Cardstock Scissors 3.5 inch Hole Punch Mini Clothespins Favor Bags STEP 1 Download and Print Your Tags Download the PDF using the link at the bottom of this page. Save it to your hard drive or a thumb drive. The PDF is a letter size, 8.5x11 inch sheet, with four circle tags on a page. For paper, use a white cardstock. If you do not have a printer, you can also have them printed at Fed Ex, Staples or an office store local to you. Once you are ready, print as many sheets as you need. STEP 2 Cut Out Your Tags The tool you need to make these tags is an extra large circle punch. This design is compatible with a 3.5 inch circle. I used this punch that I bought on Amazon and I love it. [power.book.3.raising.kanan.full.episode](#) It is so easy to use. First, trim the white border so that you can fully insert the tag into the punch. Next, insert your sheet and flip the punch over so that you can center the design inside the frame. Then just press down. You now have a perfect circle. STEP 3 Package Your Gifts I used brightly colored polka dot favor bags to package, and clipped everything together with a mini clothespin.
