Grisaia vn.

THIS GAME CONTAINS CONTENT YOU HAVE ASKED NOT TO SEE: Some Nudity or Sexual Content The developers describe the content like this: This Game may contain content not appropriate for all ages, or may not be appropriate for viewing at work: Some Veiled and Partial Nudity, Some Violence, Crude Language, General Mature Content After going through all of the routes and getting the good endings, going through a rollercoaster of emotions, I did it. This VN in particular hit me harder than Katawa Shoujo, which is one of my most favorite VNs to ever exist. The story was intricate and well-built, but there was some stuff I just couldn't help skipping. If I were to rate all of the routes in order, here's what I'd put: 5. Michuru Michuru's route was mediocre, for I learned absolutely NOTHING about Yuuji's past, and Michuru was absolutely confusing. Though, I don't hate it. 4. Yumiko Sorry. In my opinion, Yumiko has the best H-Scenes. I liked the big brain plays going on at the end, but it felt a bit hollow. Quick, to say the least. 3. Makina Makina taking on the role and seeing her grow into someone like Yuuji just really made me see the relationship they both share, and it was quite nice. Bumooh. 2. Amane Ah yes, Amane. Honestly, I don't know why I'm ranking her so high since i spent much of the story dying on Angelic Howl (why was it even named that?). Maybe it was because I got to see Yuuji's sister, total chad(?). Sachi Yeah, I can see why everyone enjoyed Sachi. Fucking LOVED this route. You can see Savhi grow more and more into a person, and at the end, she was like when she first met Yuuji.

H-Scenes aren't so bad, and that flashback of the accident gave me a heart attack. Love: it. Might try the sequel... So yeah. That's my review of Grisaia No Kajitsu. 8.5/10. I may consider trying out the sequel, so for now, peace. Grisaia no Kajitsu: Le Fruit De La Grisaia (グリザイアの果実 -Le Fruit De La Grisaia-, lit. "The Fruit of the Grisaia") is a Japanese visual novel, the first in a series of visual novels by Front Wing, with character designs by Akio Watanabe and Fumio. This game was later ported to PlayStation Portable and PlayStation Vita.

((Added by another than admin)) :: Can someone figure out how to make the "Spoiler tag"? There's quite a huge amount of spoilers lying about. Synopsis Trying to become something that he isn't, Yuuji Kazami transferred himself to Mihama Academy --- a school with only five female students and prison-like features. He was told that every student in this school have their own 'circumstances' (himself included) and that he is not required to do anything about their situation as he asked for a 'normal' student life. Will Yuuji find his solution here in Mihama Academy? Characters Edit This page shows the routes in the visual novels.
