Avoid using excessive detergent or fabric cleaners containing bleach. Also, refrain from tumble drying unless specified on the care label. Additionally, avoid ironing prints, trims, or embellishments. For specific items, be mindful of leaving garments with white and contrasting colors soaking for extended periods. Garments with metal trims should not be soaked either. Regarding footwear, treat suede & nubuck products with a protector before wear to maintain their condition. If your shoes get wet, stuff them with newspaper and let them air dry away from direct heat sources. For trainers and canvas shoes, unless specified otherwise, they shouldn't be machine washed. Instead, let them dry naturally and remove excess dirt with a clean brush or cloth. For heeled products, regularly inspect the top pieces (heel tips) and replace them when worn down to avoid slipping or further damage. When purchasing leather products from ASOS remember that it's a natural material, so some variation in color and finish between pairs may occur.**
