## **Adventures in middle earth character sheet form fillable**

**Adventures in middle-earth character sheet fillable pdf.**

I'm really excited about the AI-driven mechanics and system in AiME, which puts a strong emphasis on storytelling and its impact on the game world. While I was initially disappointed to see that the existing character sheet was outdated, I've created my own version based on the Roll20 OGL sheet, adding custom skills like Lore and Shadow Lore, as well as overhauling the classes to remove spellcasting. You can find it here: I'm not super familiar with GitHub, but so far, my version seems stable and working as intended. There's still a lot of work to be done, such as cleaning up defunct code and adding more options and warning flags. If anyone is interested in helping, I'd love that. As a designer, I've always enjoyed creating custom character sheets for tabletop games. This has led me to explore graphic design further. Recently, I created custom character sheets for Adventures in Middle Earth using D&D's Open License, inspired by J.R.R. Tolkien's source material. The layout is based on Cubicle 7's work but with my own interpretation. I've also removed text boxes as they can be limiting and not suitable for everyone's writing style. These character sheets are free to use, modify, and distribute for personal gaming purposes only. You can find them here: I'd love to hear any feedback you have on these free gaming sheets. we only have A4 size sheets available but you can check out our newer version which is modeled after the official character sheets we also have Journey sheets available for download
