this is a topic for discussing the bloons adventure time td trainer and cheats in the we mod app post any suggestions bug reports or praise you may have for the cheats here download the trainer or find it in the we mod app trainer options and cheats include easy cash and set game speed supported game versions are kept up to date with the latest versions the trainer automatically detects your installed version and activates mods accordingly updates and changes were made on 06/07/2021 a trainer was released with 2 cheats for bloons adventure time td check out all games we mod supports here the cheats have been updated changes include releasing a trainer with 1 cheat post in this topic if you run into any issues can you please add infinite hp to the cheat if yes could you also add inf coins and gems please hey lokilok1126 unfortunately no because they can be bought so we try to avoid hacking such stuff we might get sued for real life but i can probably add unlimited health that would be cool stay tuned for it cheers maybe high attack rate or something if cant thats alright hi lokilok1126 sadly the game is encrypted so its not really easy to cheat anything but when i clear my work for the moment i can go give it another try until then i can add a speed cheat so you can play through battles faster so i do like the speed cheat that you might come up with but if possible try adding an instant win perhaps it is possible but it might be too hard to do on steam if you can many thanks but i understand if you cant and if you cant try adding infinite health either or would be nice thanks in advance if you read this also sorry if i replied to the wrong message i like the speed cheat feature but it tends to be lag when reaching further rounds in martian games or maybe its just my unit thats crappy anyways its a great update i also have a question can you modify damage output though is it possible because that would be sick love these helps a lot but could you make it easier to get shardsgems if possible if you cant i totally understand any new and possible cheats would be nice like the person above me said a cheat or trainer for gems and or shards would be nice or maybe some trainers like what btd6 has would be nice too anything helps if the cheats update like btd6 it will be good can you add inf of the supermonkey so if i place one super monkey i can place another and so on i was wondering if you can add insta win or something like that because there is always someone with 1 mil or more rounds on martins games adding health cheats would be enough multipliers exp and rewards any updates on the inf health cheats post by n3rvemods wed nov 22 2023 2:31 pm bloons adventure time td steam v1.0 cheat engine table ct game name Adventure Time TD game on Steam, EPiC, and Microsoft Store with Xbox GamePass; uses Unity game engine. Features include infinite money. Tested on Steam version, but may work for non-Steam versions too. Cheat Engine 7.0 or higher required; compatible across devices and versions. Gives +rep if liked, don't share without linking to thread, use app for encouragement. How to use: install Cheat Engine, double-click .CT file, select game process, keep list, activate trainer options by checking boxes or setting values from 0 to 1. Its absolutly great work here! Playing with easy cash was a blast cuz i could put all my characters in & max them out without waitin too long, only had to chill for 5 mins instead of an hour thats awesome. Would be super cool if u could add unlimited lives or let me reuse the same chars multiple times. Also wud b nice if we got inf coins from menu, pls make it happen! God bless u & thx 4 letting me stay up till 11pm on a school nite with this, that was so much fun!! Wud be awesome if u added more mods like infinite shards or many hearts or infinite money & gems pls! Thx bro for makin this, I wanted it 4 ages & now when I tried it out, it was great! Works well but wud b cool if we cud activate the on/off slider via mouse in the mod window instead of thinkin we need pro acc to turn it on. Also, would be awesome if u added more mods like free shards, gems, and coins.
