Download or print this printable tournament bracket for your single-elimination competition featuring 32 teams! This template is perfect for any sport or game, from basketball to wrestling, soccer, football, chess, video games, and more. You can even update the team names electronically using editable PDF formats. When choosing a tournament bracket, consider the number of participants, time constraints, and what you want to emphasize - skill, luck, participation, or a combination. Single elimination is ideal for quick and dramatic tournaments, while double elimination allows for comebacks and round robin ensures everyone plays a lot. Our 32-team printable brackets are designed for single-elimination tournaments with five full stages of exciting games leading up to one champion. You can choose from blind draw, seeded, or blank templates that are not only printable but also customizable. The famous NCAA Men's Division I Basketball Tournament features a 32-team bracket, making it a popular and effective format for many sports. With our template, all teams start with a match-up, eliminating the need for play-in games or byes to top seeds. We recommend capping tournaments at one of the following numbers: 4, 8, 16, 32, or 64 teams. This ensures fair and balanced competition without the need for subjective seeding decisions. In a 32-team field, half the teams are eliminated at each round until only one undefeated team remains. The champion of an unbeaten tournament. How do I seed 32 teams? You'll seed each team from the top-ranked (#1) to the lowest-ranked (#16) on both sides of the bracket, effectively creating a mirrored 16-team bracket. To help visualize this, we've created a table: | Seed # | Matchup | | --- | | 1 vs. 16 | 2 vs. 15 | | 3 vs. 14 | 4 vs. 13 | | 5 vs. 12 | 6 vs. 11 | | 7 vs. 10 | 8 vs. 9 | You'll repeat this seeding process twice, for both sides of the bracket. Download our printable blank 32-team bracket in PDF, Word, or JPG format to customize and populate teams, seeds, and more. This format is similar to the second round of the March Madness tournament. If you prefer a PDF version, ensure you have Adobe Reader installed. For editing and customization options, download the Word document version. For reference, check out other tournament brackets to understand how the number of teams affects bracket functionality.
