I'm human

Ma k modeling book

Modeling books.

This is a Japanese-language book about building and painting Maschinen Krieger models. The book, titled "Ma.K Modeling Book", was written by Kow Yokoyama, a renowned expert in the field. It features his tips and techniques for building 20 different Ma.K. kits, as well as the tools and coloring methods he used for each one. The book is geared towards fans of Maschinen Krieger and offers insights into how Kow Yokoyama creates his masterpieces. However, all text in the book is in Japanese. The book has a soft cover and contains 111 pages. It measures 286 x 216 x 14 mm and was published by Hobby Japan in 2006. Note: The text also mentions other related books and products, such as Ma.K. B.D., Maschinen Krieger Profile, From SF3D To Ma.K. Combat Scheme Card File, and more. Ma.K Modeling Book by Kow Yokoyama is a guide on how to build Maschinen Krieger models. It's the first volume in the series, released in 2006 by Hobby Japan. The book is written in Japanese and has 111 pages. There are no reviews available for this title.
