Boy Meets World is a beloved sitcom from the 1990s that not only taught us life lessons but also shared many bookish lessons. The show often referenced literary classics in English class, mirroring the episode's plot line. Over seven seasons, the characters studied numerous books, including Romeo and Juliet by William Shakespeare, "The Raven" by Edgar Allen Poe, and A Christmas Carol by Charles Dickens. Other notable mentions include Hamlet by William Shakespeare, Beowulf, The Odyssey by Homer, and Lord of the Flies by William Golding. The show's attention to literature even inspired a reading list, featuring all the books referenced or shown throughout its seven seasons. This interactive list allows viewers to follow along with Cory, Shawn, Topanga, Mr. Feeny, and more as they navigate their lives while referencing and reading books. With this book list, you can relive your favorite moments from Boy Meets World and even participate in a reading challenge. --- The character of George Feeny was inspired by a high school drama teacher who had a significant impact on Michael Jacobs' life. Jacobs created the character for his sitcom Boy Meets World and sought out William Daniels to play the role. Initially, Daniels was hesitant due to concerns about portraying a high school teacher in a negative light. However, Jacobs assured him that he would not have him play an idiot and explained that he had based the character on his own high school drama teacher, who was kind and wise. Despite some early reservations, Daniels eventually joined the cast, bringing a strong-willed presence to the show. Here's to Mr. Feeny! I got it and died for it. You know why? Because that was me, and that was the start of something special. A seven-season run from 1993 to 2000, with reruns still going strong today. Memories of the show fill the Internet, and people still come up to me on the street or in restaurants calling me Mr. Feeny. I even had a crazy encounter in New York where some yeshiva boys chased me out of a theater shouting "Feeny!" and forcing me to abandon my family for a bit. I don't usually watch TV sitcoms, but I do love Seinfeld. Apparently, I'm not alone, as the ones I did in the past didn't last long. After St. Elsewhere, I had offers for numerous sitcoms with roles for Bonnie and me as a couple. It was weird. We played a couple in an hour-long drama, but somehow we needed to be in a comedy together. Boy Meets World became a huge hit, creating an indelible impression on an entire generation. Mr. Feeny's appeal lay in being a friend, mentor, and advisor all rolled into one. Michael even made Mr. Feeny my neighbor – at first, I got annoyed with the constant talking across the fence! But it was worth it. Feeny never talked down to the kids, and the writing assumed we were intelligent enough to get the comedy. Boy Meets World is funny, genuinely funny. I still get fan mail from fans who tell me how important the show was to them in their formative years. Mr. Feeny's impact on popular culture shows up in social media, with posts like "16 Things Mr. Feeny Taught Us." Even parents have thanked me for a show they felt comfortable having their kids watch. The show became a hit quickly, helped by its scheduling – no competition from school homework on Friday nights, thanks to ABC's block of kid-oriented comedies. The birth of "couch programming" on abc networks marked a significant shift in television programming. Executives believed that new shows would captivate children's attention, leading their parents to follow suit. This proved correct, but it didn't mean they were always right. The network's interference in the creative process was a recurring issue. Michael, the show's creator, often incorporated references to literature and the wider world into his scripts, but executives wouldn't always appreciate them or understand the audience's connection to these nods. Over the seven-year run of episodes, my character evolved alongside Cory and his friends as they navigated life changes. Mr. Feeny, initially Cory's middle school teacher, later became his high school principal, and finally, his college professor. As the show progressed, the share of female viewers between 17 and 35 increased significantly, particularly with Cory's on-again, off-again relationship with Topanga Lawrence. Feeny became a pivotal figure in the show, offering advice on love, college, marriage, and life. This emotional growth was crucial to the characters' development. The role of Feeny as both neighbor and teacher, as well as school principal and college professor, kept me on screen for much of the time. If not counseling kids at John Adams (!) Middle School and High School, he was doing the same with the Matthews family next door. Michael Jacobs assembled a talented young cast, which developed into real pros over the years, showcasing exceptional comic timing. I may have played a small role in their growth, but Will Friedle credits me for setting an example, much like Howard Lindsay had done for me during Life with Father. The kids were good, and they had good parents. I never discussed my time as a child actor or on Broadway with the cast of Boy Meets World. That's not what friends are for, right? I treated them like fellow pros, same as the adult actors I worked with elsewhere. It was cool seeing the young cast grow up - Ben Savage was 11 when we started, and by the end he was 17 and cruising into the studio lot in his truck! The cast and their families handled the pressure well, if you ask me. I made sure to keep things professional and not take an advisory role, even when Bonnie suggested I give some tips. They did their thing, I did mine - kept it equal and all that jazz. There was a family vibe on set, which was great. Michael was a kind soul with strong faith and a warm heart. Bonnie and I became buddies with the adult cast, especially Rusty (William Russ) and Betsy Randle. One time at dinner, Rusty said he never thought he'd do a sitcom after all those dramatic roles - but he was in it for me! I've got to admit, though, working on Boy Meets World had its challenges. We rehearsed four days a week, and the staff and cast made set life awesome during that time. But when we taped... it was a whole different story. The studio became chaotic with a live audience going wild - they'd laugh at random lines or even before you got to the funny part! And if I messed up, they'd erupt in laughter while I was feeling crummy about it. This never made sense to me, but hey, maybe they just loved being in on some inside joke? Then there were all these friends and family members hanging out back stage, chomping down snacks... only stopping when the AD yelled "Rolling!" Not exactly my cup of tea, so I'd hide in my dressing room till it was time to do my thing. But even then, the commotion made it tough for me to focus - I'm an old school guy who needs a chill moment before hitting the stage. One day, someone decided to give me a heads up about something right before I had to enter... I was deeply saddened to learn that my Emmy-winning costar Ed Flanders had taken his own life. Working with him on St. Elsewhere was an absolute pleasure, and he remains my favorite scene partner to this day. The news of his passing left me devastated. For the first time ever, I struggled to make my entrance on set. We were filming on location, surrounded by musical equipment, when the chaos became too much to bear. The younger cast members, still learning the ropes of a weekly show, had lost focus and were blowing off steam. I reached my breaking point and shouted for everyone to be quiet. The room fell silent, with Michael noting that the young actors looked at me in awe, unaware that I, too, had started out as a child performer. He even joked that he'd catch glimpses of an English accent in my performances, including the impromptu speech I gave that day. "I don't care about the script or blocking," I said. "What matters is that you're fully present and committed to the scene." The outburst lasted less than a minute before I stormed off. As I passed Michael, who was sitting at the piano, he looked stunned along with everyone else. But he knew I wasn't truly angry, just frustrated – and he detected echoes of another character I'd played years prior in my speech. He responded by playing the iconic theme to St. Elsewhere on the piano, and I smiled and winked at him, getting his message that I was "performing." After seven seasons, Boy Meets World came to an end, just as Michael had predicted. I felt close to my fellow actors, particularly in the final episodes when our characters reached college age. The series finale featured a heartwarming wedding between Bonnie's character and mine, followed by a poignant goodbye scene that left many fans in tears. Looking back at that moment when I told my students it was time for them to move on, I remembered the words I had shared with them so many times before: “Believe in yourselves. Dream. Try. Do Good.” Topanga pointed out the slight discrepancy between this phrase and the more conventional advice of “Do well,” but I stood firm. With all of my students present except for Cory, I acknowledged that there was only one final request left to make – a statement of love and appreciation. When Eric asked me to verbalize it, I felt uncomfortable, knowing that as their teacher, there should be no crossing the line into a personal relationship. Shawn playfully teased me about having favorites among my students, but Cory's comment stung, highlighting the years I had spent focused on teaching rather than interacting with anyone outside of this group. As the class dismissed and Cory remained behind, our bond was palpable. Boy Meets World is an American coming-of-age sitcom that aired on ABC from 1993 to 2000. The show revolves around Cory Matthews, played by Ben Savage, and his family and friends as they navigate adolescence. The series explores everyday life at Cory's home and school, with guidance from his teacher and neighbor George Feeny. Key relationships include Cory's brother Eric, sister Morgan, and best friend Shawn Hunter, as well as romantic interest Topanga Lawrence. Over the seven seasons, characters like Jonathan Turner, Eli Williams, and Jack Hunter were introduced, while themes of family, friendships, and self-discovery remained central. Cory Matthews is the main protagonist who navigates through various challenges and life lessons as he grows up. Cory's best friend Shawn Hunter comes from a troubled background. Eric Matthews, Cory's older brother, faces difficulties in his college application process. Topanga Lawrence, Cory's classmate, becomes close to him over time. The series explores their relationships and personal growth throughout its seven seasons. With Ben Savage as the central figure, Jacobs incorporated him into the series known as The Ben Savage Project. Initially, William Daniels was hesitant to join but eventually accepted after re-writing the pilot and adding a layer of respect for his character Mr. Feeny. Rider Strong secured the role of Shawn, while Shiloh Strong's brother Jason Marsden auditioned for Eric before Will Friedle secured the part. Danielle Fishel initially wasn't cast as Topanga but took on the role early on; however, Jacobs threatened to fire her during filming. Boy Meets World got renewed for a fifth season in 1997 and new cast member Matthew Lawrence joined as Jack Hunter. Bonnie Bartlett, William Daniels' wife, would later portray Dean Bolander. A re-write of the pilot addressed network executives' concerns over Shakespeare references. The chemistry between Ben Savage and Danielle Fishel led to developing Cory and Topanga's relationship. Jacobs was initially met with disapproval from an executive but a favorable poll changed that. Eric's character became more comical as the show progressed to accommodate Will Friedle's comedic abilities. The seventh season of Boy Meets World concluded in April, with Savage planning college attendance. Despite no "large-scale" finale, there was a possibility for the show's return. ABC officially announced that the seventh season would be its last, and the hour-long series finale aired on May 5, 2000, considering Cory and Topanga's move to New York. The show's main character, Cory Matthews (played by Ben Savage), was a young boy navigating adolescence with his best friend Shawn Hunter (played by Rider Strong). Throughout its seven-season run, Boy Meets World tackled various cultural issues such as child abuse, sexual harassment, and underage drinking. The show also explored themes of friendship, love, and personal growth. The characters' relationships were often used to illustrate these themes, including a notable instance where the actress who played Cory's love interest, Topanga Lawrence (played by Danielle Fishel), expressed her hope that their on-screen relationship would be seen as an example of color blindness in the world. The show was well-received and earned several award nominations during its run. Some of these awards include Nickelodeon Kids' Choice Awards, Young Artist Awards, and YoungStar Awards. The show's popularity continued even after it ended its original broadcast, with the first three seasons being released on DVD by Buena Vista Home Entertainment in 2004-2005. In 2010, Lionsgate Home Entertainment acquired the rights to release the series on DVD, starting with the first three seasons and eventually releasing all seven seasons. In 2013, Lionsgate also released a complete collection of the show on DVD, featuring all 158 episodes as well as bonus features. Girl Meets World series was announced in November 2012 by Disney Channel, which picked up nearly fifteen years after Boy Meets World ended. The new series follows Cory and Topanga's daughter Riley as she navigates her adolescent years with her best friend Maya. Ben Savage and Danielle Fishel reprised their roles as Cory and Topanga, while other cast members made recurring appearances. Girl Meets World ran for three seasons before its conclusion in 2017. Frank Bibler published ratings for TV shows from 1994 to 1997. In 1998 and 1999, Entertainment Weekly featured articles on TV winners and losers. Variety magazine released top TV shows for the 1999-2000 season. In 2010, Sitcomsonline.com reported that ABC Family (now Freeform) was bringing back "Boy Meets World" and "7th Heaven." MTV2 aired reruns of "Boy Meets World." In 2014, it was announced that a spin-off series, "Girl Meets World," would premiere on Disney Channel. In 2017, Hulu added the original "Boy Meets World" series to its lineup. In 2019, Disney+ announced its entertainment offerings, including classic TV shows like "Boy Meets World." Articles from The Los Angeles Times and The Guardian discussed how "Boy Meets World" addressed serious topics and featured diverse characters. ScreenRant published articles highlighting the show's portrayal of serious issues and its impact on pop culture. The Young Artist Awards recognized "Boy Meets World" for its contributions to youth in film. 1996–1997 Young Artist Awards, 20th Annual Awards, Twenty-first Annual Youth in Film Awards 1998–1999, Nominations for the 3rd Annual Hollywood Reporter YoungStar Awards
