Keep in mind that if you plan to wear thick trainer socks, you'll need to order half a size larger. The size guide is as follows: - Child/Youth sizes: 9-13 EU 28-33 - Adult sizes: 2-9 EU 35-39 It's recommended to measure your foot length correctly by using the following steps: 1. Attach paper to the wall and stand on it with your heel against the wall. 2. Mark the length of your foot on the paper, using the longest part as a guide. 3. Measure from the end of the paper to the marked line. When choosing a shoe size, refer to the size chart for your specific shoe model. If your measurement falls between sizes, it's recommended to choose a bigger size. Additionally, Reddit uses cookies and similar technologies to provide you with a better experience.
