Our KS3 English worksheets are designed to break down the curriculum into bite-sized chunks, keeping your child engaged through various activities. We understand that a solid foundation is crucial before moving on to more challenging topics, so we provide plenty of opportunities for learning and testing new knowledge. Our traditional worksheet activities are complemented by specially designed revision and test papers, helping your child prepare for exam-style questions and track their progress. To cater to different learning styles, our worksheets incorporate colors, graphics, and visual materials that allow every student to understand new content in a way that suits them best. We collaborate with the community, including parents, educational professionals, and schools, to ensure our KS3 English resources are of the highest quality. Our dedicated team regularly updates content and creates new KS3 English resources to cover the entire curriculum and make learning fun! To prepare for KS3 English, we offer a Year 6 to Year 7 literacy transition pack that includes activities such as revising journalistic writing, figurative language, persuasive text, and more, as well as challenging reading comprehensions and wordsearches. This is an ideal way to boost your confidence during the summer holidays and hit the ground running in secondary school! To access our comprehensive resources, including 1000s of worksheets, learning packs, and activities, subscribe now or log in if you're already a subscriber. Need to identify commands, alliteration, emotive words and use of the first person? This worksheet helps your child improve their descriptive writing by using similes and metaphors correctly. It offers a quick reminder of how and when they're used, so you can help them unlock hidden meaning in text with this colour association activity. You can also use this to practise reading comprehension, identifying purpose and target audience of different types of text, and testing their skills through thorough analysis of a short piece of text. This worksheet is suitable for Year 7 or advanced primary school pupils, so you can help your child improve their descriptive writing and develop their analytical skills. Want access? Sign in first! Writers use pictures on paper - like words painting images - to help readers see things more clearly. This worksheet is like a tool for kids to learn how to spot those mental snapshots and even create their own comparisons to make their stories come alive.
