The Night World series revolves around characters who possess supernatural powers and are bound by strict laws that prohibit their existence among humans. The novels explore instances where these laws are broken, often with disastrous consequences. In "Secret Vampire", Poppy's life is turned upside down when she learns her terminal cancer diagnosis, and only a vampire like James can save her. They must risk everything to defy the Night World's rules. The series also delves into the lives of three vampire sisters who flee their isolated home in "Daughters of Darkness". Their brother Ash is sent to retrieve them, but his mission takes an unexpected turn when he falls for their friend. Meanwhile, two witch cousins clash over their high school crush in "Spellbinder". As Gillian becomes closer to Eric, she realizes that embracing their bond will only lead to death and destruction for both of them. To make matters worse, Blaise has decided to target Eric with her dark powers. The Night World is a secret society where vampires, werewolves, witches, shapeshifters, and others live among humans without being detected. Falling in love with a human breaks all the laws of this world. In Dark Angel, Gillian's guardian angel saves her from drowning. However, as Angel starts making strange requests, Gillian begins to question his true nature and where he came from. Armed with martial arts skills and a determination to resist mind control, Rashel seeks revenge for her mother's death in The Chosen. She meets Quinn, her soulmate, who is part of the world she has vowed to destroy. Hannah receives cryptic notes warning her of danger in Soulmate. However, if death is her destiny, will the Lord of the Night World's love be strong enough to save her? One intriguing aspect about Hannah is that she's an Old Soul, a human who has lived multiple lifetimes and reincarnated repeatedly. Additionally, in each lifetime, she's pursued by Thierry Descouedres, a powerful vampire and Night World Elder who has been searching for her across the centuries. Despite being drawn to him, Hannah fears their connection, as she claims that although they're destined to be together, Thierry has brutally murdered her in every lifetime before she turns seventeen. The Night World is not just a place, but an intricate network of vampires, werewolves, witches, and dark creatures living among humans. In the third installment of this series, the Night People prepare for the apocalypse, seeking to destroy the human world. Four teenagers have been granted special powers to prevent this impending doom, but first, they must survive along with their soulmates. In Huntress, a half-vampire hunter stalks other vampires to protect humans. Meanwhile, in Black Dawn, a vampire prince falls in love with an enslaved girl, and a shapeshifter must safeguard a rebellious teenager in Witchlight. While hunting down a violent gang in San Francisco, sixteen-year-old vampire Jez Redfern uncovers a shocking childhood memory: she's the product of a forbidden marriage between a vampire and a human. Feeling immense guilt for her dark past, Jez forsakes her gang and joins Circle Daybreak to protect humans from the Night World. However, when Circle Daybreak receives a lead on the first Wild Power, Jez is forced to rejoin her old gang and acquire the power before it falls into the wrong hands. Maggie Neely awakens one November night to find her mother screaming. Upon investigating, she discovers Sylvia Weald, her brother's girlfriend, sorrowfully announcing Miles' death in a mountain climbing incident. Convinced of Sylvia's deception, Maggie follows her, only to be knocked unconscious and taken to the hidden Night World kingdom, the Dark Kingdom, as a slave. Liberating herself and others, Maggie searches for her brother with the unexpected help of Delos Redfern, the vampire prince and ruler of the Dark Kingdom, who also happens to be the second Wild Power. However, Iliana's reluctance to accept her destiny and Galen Drache's fate complicate matters. Meanwhile, Sarah Strange receives visions of a dystopian future and is recruited by Circle Daybreak to prevent it. As she navigates her own destiny, she discovers potential soulmates and must survive to fulfill her purpose. Night World is a young adult fantasy novel series by American author L. J. Smith. The novels are centered around the concept of a secret society known as the Night World where vampires, witches, and other supernatural creatures live among humans without their knowledge. The series emphasizes two key laws: keeping human knowledge about the Night World's existence hidden and never allowing humans to fall in love with one from the Night World. Each book follows a different teenage female protagonist facing challenges related to love, the soulmate principle, and the strict code of the Night World. Initially, the plot focuses on finding soulmates and the subsequent dangers, but later books introduce an impending millennial apocalypse and the search for four "Wild Powers" prophesied to save or destroy the world. The series was initially published in 1996-1998 but saw a resurgence in 2008 with the release of three omnibus volumes, including some inconsistent edits like replacing "Walkman" with "iPod." The novels are characterized by their use of the "soulmate principle," where two individuals discover they have an unbreakable bond of love. The Council's laws and the Night People's disapproval couldn't stop James from making Poppy a vampire, despite Phil's objections. They're soulmates, but modern Night People deem that concept nonsensical. After Poppy is abducted by Ash, who plans to expose her as an illegal vampire, James rescues her and realizes Phil and Poppy have witch ancestry, giving them the right to know about the Night World. Together, they decide to change their people's laws. Meanwhile, the Redfern sisters flee their island enclave in Oregon, planning to stay with Aunt Opal, but find she's been killed. Instead of killing Mary-Lynnette and her brother Mark, who suspect them, the Redferns do a blood-crossing ceremony, binding them together for protection. Ash returns from killing Opal and meets Mary-Lynnette, discovering they're soulmates, which prompts him to help in the investigation. The group discovers that Jeremy is a rogue werewolf responsible for the murders, but his true intentions are to turn Mary-Lynnette into one, seeing Ash as a threat. After defending herself with a silver knife, Mary-Lynnette kills Jeremy when her car explodes, and Ash fabricates an alibi to clear his sisters' names. Mary-Lynnette admits she loves Ash but is hesitant to become a vampire, and he vows to change for her, promising to return soon. As Ash leaves the enclaves, his sisters & the Carters work on setting up a new haven for the Night People. Witches Thea & Blaise Harman are first cousins who use magic differently - Thea heals animals with white magic while Blaise uses black magic to control others. At their new school, Thea heals Eric Ross after he's bitten by a snake but runs away when he guesses she used magic; she later pretends to want to seduce him so Blaise won't target him. However, this plan fails, and Blaise vows to harm Eric, causing Thea to release a vengeful spirit that kills one of Blaise's admirers. As Thea tries to capture the spirit, she takes refuge at Eric's house, where they discuss their feelings; eventually, Thea tells Eric the truth about her magic, and he agrees to help her banish the spirit. Despite this, the Circle of Witches refuses to let them be together, but Blaise switches a drink that should erase their memories with iced tea, allowing them to keep their love secret. Meanwhile, Gillian Lennox is resurrected by an angel who encourages her to change her appearance & behavior, making her popular and uniting her with her long-time crush David Blackburn; however, this newfound power also reveals her witch heritage and a complicated past involving her cousin Blaise. Gillian creates a spell with Angel's guidance to stop Tanya and Kim, but it backfires, making Tanya sick. As Angel's commands become more erratic, Gillian realizes her mistake and seeks help from Melusine. Together, they undo the spell, concluding that Angel is likely a spirit with unfinished business. Before confronting Angel, Gillian visits David in hospital, where she learns he was her soulmate. She then searches for him in the cemetery, finding his grave and learning his name is Gary Fargeon. With David's help, Gillian leads Gary's father to the girl whose death he caused, allowing Gary to finally move on. Meanwhile, Rashel Jordan, a young vampire hunter, seeks revenge against those who killed her family members. She links up with a hunting team in Boston and apprehends a "made" vampire named John Quinn. Rashel then infiltrates an underground party to rescue abducted girls, but is captured by the vampires, including Quinn. However, their connection allows them to see each other's pasts, uniting them against the Night World. They confront the vampires, led by Quinn, and ultimately discover that Quinn is Gillian's long-lost soulmate. Girls were to be used as a feast but discovered Hunter Redfern was behind the abductions after Quinn realized he was his guardian. Rashel recognized him as her mother's killer and found Timmy alive as a vampire. They escaped with Timmy while Nyala set fire, then Rashel and Quinn saved her. Rashel calmed down and decided to find Circle Daybreak with Quinn. Hannah Snow had nightmares and was warned she'd die before 17. She met psychologist Paul Winfield and discovered she's an "old soul" who lived many past lives featuring her mate Thierry Descouedres, a made vampire, and arch-nemesis Maya. In each life, Hannah died before 17 but soon realized it was Maya who killed her. Through hypnosis, Hannah learned about Circle Daybreak, a group of humans, vampires, and others seeking peace between Night World and the human race. Maya tried to turn Hannah into a vampire but she managed to kill her instead. Lily Redfern captures Morghead and Jez, seeking the Wild Power. Jez uncovers the prophecy's meaning: she's a Wild Power, and her blood must be spilled to release blue fire. Lily stabs Morghead, but he survives after convincing Jez not to give up. Meanwhile, Maggie tries to rescue her brother from his witch girlfriend, Sylvia. She finds an old Night World colony, meeting vampire prince Delos Redfern, a Wild Power. Despite being cold towards her, Delos repeatedly saves Maggie, eventually revealing they're soulmates. As Delos's great-grandfather Hunter Redfern takes over the kingdom, Maggie discovers her brother was turned into a shapeshifting falcon by Sylvia. The spell binding Delos's powers is broken when Sylvia is killed. Hunter Redfern is presumably defeated by Delos using blue fire. Maggie finds her brother and soulmate, but war erupts between vampires and witches as the Night World Council secedes. Two Wild Powers have been found, with both on Circle Daybreak's side. Only two remain: Raksha Keller and her team must save Iliana Harman, destined to marry Galen Drache. However, when Raksha learns Galen is her soulmate, she realizes their love could destroy the world. Shapeshifters have been attacking humans and killed Grandma Harman. Iliana's friend Jaime hosts a party on the same night as the witches' bonding ceremony. Iliana tries to use her powers to save Jaime but fails. Assuming she's not the Wild Power, Iliana agrees to pretend to be one so the ceremony can proceed. However, she insists on attending Jaime's party with Raksha and her protectors present to keep her safe from Night World shapeshifters, particularly a dragon that can disguise itself as anyone it touches. The night before the party, Raksha and Galen study ancient scrolls, learning about dragons' horns and the spell to disable their shape-shifting abilities. They also discover they're soulmates but decide to ignore it for Iliana's sake. At Jaime's party, the dragon disguises itself as someone, but its plan is foiled... As Raksha's captor, disguised as Jaime, tries to trap her in a room, she uses her shape-shifting abilities to transform into a panther and escape. She then returns to the party to find Iliana, only to be led by an unknown figure to the basement, where she discovers a secret tunnel that ultimately reunites her with her friends. Raksha confronts the dragon, which is revealed to be Jaime's imposter, and successfully removes three of its five horns, with help from Galen, who transforms into a leopard to save Raksha. Later, Raksha sees Iliana's witch friend whispering something to her, prompting Iliana to stand up and use magic to defeat the dragon while healing everyone else.
