Not suitable for children under 36 months due to danger of swallowing small parts. Choking hazard! Please keep this owner's instruction manual for future reference. It contains important information. We reserve the right to improve/revise product specifications without notice. Class 1 LED Product Contents: RC Vehicle, RC Transmitter Warning: Make sure you have an adult nearby when assembling and using your Maisto Radio Controlled Car. Safety Precautions: Avoid direct sunlight and keep away from water while playing with your vehicle. Instructions for the Transmitter: Insert two new 1.5V "AAA" LR03/R03 batteries with correct polarity into the battery compartment. Make sure to install them correctly, as shown inside the transmitter's battery compartment. Instructions for the Vehicle: Place four new 1.5V "AAA" LR03/LR03 batteries with correct polarity into the vehicle's battery compartment. Ensure that you turn off the power of the vehicle before assembling or disassembling it. How to Play: Turn on both the controller and the vehicle, then wait less than three seconds for the automatic frequency matching process to complete. If the controller's "Power LED" stays on for more than three seconds, switch o and on again. Age 5+
