The Heroes in a Half Shell are Revving Up for a New Season of Tales of the Teenage Mutant Ninja Turtles, and Fans Can Get Ready to Dive Into the World of TMNT Like Never Before! Paramount+ has dropped the official trailer for Season 2 of Tales of the TMNT, giving fans a first look at what's next for Leonardo, Raphael, Michelangelo, and Donatello as they face fresh threats and new allies in a city that's more alive - and mutating - than ever. Produced by Nickelodeon Animation and Point Grey Pictures, the show returns this December, exclusively on Paramount+. But that's just the beginning of an all-new era for the franchise! The trailer's debut kicks off the launch of World of TMNT, a bold new initiative uniting the entire TMNT universe - past, present, and future - under one shell. With over 40 years of Turtle power across films, series, games, comics, and merchandise now accessible through a single hub at TheWorldofTMNT.com, fans can explore the complete TMNT legacy like never before. From the original Eastman & Laird comics and '90s live-action classics to Mutant Mayhem and beyond, World of TMNT celebrates every era of Turtle storytelling. With more than 10 unique iterations of the franchise, this new platform honors every version of the brothers while offering new ways to experience and connect with their evolving story. At launch, World of TMNT spotlights six television series, three movie franchises, hundreds of comic books, and countless collectibles, giving fans an all-access pass to their favorite heroes and the adventures that defined them. Fans can dive deep into decades of TMNT history at TheWorldofTMNT.com, featuring: * Eastman & Laird Comics * Fred Wolf TV Series * 1990s Live-Action Films * 2003 Series * 2012 Series * Michael Bay Films * Rise of the TMNT * TMNT: Mutant Mayhem * Tales of the TMNT * The Last Ronin Comic Miniseries * TMNT IDW Comics Collection And, to top it all off, Paramount expands the World of TMNT with Iconic Origins: Teenage Mutant Ninja Turtles, a new limited-series documentary podcast chronicling the radical rise and enduring legacy of the world's most beloved mutant heroes. Hosted by Gen Z creator Ben of the Week (Benjamin De Almeida), the eight-episode series features exclusive interviews with TMNT creators, artists, and voice talent, tracing the Turtles' journey from indie comic to global phenomenon. Fans can experience the World of TMNT at New York Comic Con this weekend, with a series of totally tubular experiences, exclusive reveals, and photo ops designed for fans of all ages. Don't miss out on the action!Tom Waltz gets an inside look at the upcoming TMNT VR game for Paramount, which includes new spotlight tales and episodes. ========== About Tales of the Teenage Mutant Ninja Turtles season two: The Ninja Turtles are back with four new spotlights! Raph fights in a mutant arena, Donnie faces a mad scientist, Leo battles a super villain, and Mikey's sleuthing brings him to Muckman. ========== Episode Guide: Raph needs to fight in the Mutant Battle Arena but must work with his brothers to stop Bebop and Rocksteady from wrecking the city. Raph's new trainer Spuds encourages him to use fighting as an outlet for his anger, even if others don't understand it. ========== Mutantweight Title Bout: Raph fights in the underground Mutant Battle Arena but doesn't realize he's walked into a trap set by Kitsune and her gang. Raph wins but gains valuable rewards that make Donnie, Leo, and Mikey suspicious. ========== Raph Fights Everyone: Raph is under mind control after his family and friends are captured by Kitsune. He must fight with Pigeon Pete's help to save everyone he loves before it's too late. ========== The Island: The Mutanimals turn on the Ninja Turtles after Ray Fillet accuses them of attacking him in Central Park. Donnie discovers a mutant turtle named Tokka and is drawn to a terrifying laboratory on Staten Island. ========== The evil Tokka, a snapping turtle mutant, wreaks havoc on Ray's life. However, when Tokka's watch beeps, it escapes, and Donnie must track him down. The brothers' search leads to two Tokkas in an abandoned factory, but more Monster Mutanimals emerge. Desperate to save Wingnut from Tokka, Donnie delves into a mad scientist's lab, only for things to take a disastrous turn. Meanwhile, the Turtles try to get pizza but end up causing chaos. Donnie discovers a video explaining that the Monster Mutanimals need stable mutant blood and are doomed unless they find it. The mad scientist, Jordan Perry, kidnaps Donatello's brothers, leading to a mutant invasion on Staten Island. The situation worsens when Leo becomes the Night Ninja, inspired by saving a subway station. However, he faces off against villainous La Fleur and her gang of dognappers. When Leonardo starts his crime-fighting vigilante life, his brothers interrogate him about it. They join forces with April to stop La Fleur's dog-napping ring. The Night Ninjas ultimately face off against La Fleur, but their efforts may be too late. Leo returns as the Night Ninja to confront the villainous Scratch, who holds the city's dogs hostage. However, Leo soon discovers there's more to Scratch than meets the eye. In a final battle, the Turtles take on Scratch and his mutant Vampire Fleas. Mikey must track down Rod after he's kidnapped by Bishop's former intern. The case leads Mikey to question Rod's siblings, Maude and Todd, who are also seeking mutant blood. With loose Mutagen at stake, Mikey's investigation unfolds as he tries to rescue Rod before it's too late.Tales of the Teenage Mutant Ninja Turtles: Season 2 Trailer Released, Marking New Era for Iconic Franchise ========== Paramount+ has released the official trailer for Season 2 of Tales of the Teenage Mutant Ninja Turtles, a new animated series from the universe of Teenage Mutant Ninja Turtles: Mutant Mayhem. The trailer introduces fans to an all-new era for the beloved heroes in a half-shell as they face fresh threats and new allies in a city that's more alive - and mutating - than ever. The trailer's debut kicks off a larger celebration, the launch of World of TMNT, an expansive new initiative uniting the entire TMNT universe under one shell. This comprehensive hub brings together over 40 years of Turtle Power across films, series, games, comics, and merchandise, offering fans an all-access pass to their favorite heroes and adventures. World of TMNT features six television series, three movie franchises, hundreds of comic books, and countless collectibles, including Eastman & Laird comics, Fred Wolf TV series, 1990s live-action films, Michael Bay movies, Rise of the TMNT, and Tales of the TMNT. The platform also boasts an extensive library of rare comic book issues, exclusive merchandise, and behind-the-scenes content. Paramount is expanding World of TMNT with Iconic Origins: Teenage Mutant Ninja Turtles, a new limited-series documentary podcast chronicling the rise and enduring legacy of the world's most beloved mutant heroes. Hosted by Gen Z creator Ben of the Week, the eight-episode series features exclusive interviews with TMNT creators, artists, and voice talent. This weekend, World of TMNT takes over New York Comic Con with a series of experiences designed for fans of all ages, including photo ops, exclusive reveals, and more. Fans can also step into the spotlight with the new World of TMNT logo and become part of the legacy.The Teenage Mutant Ninja Turtles are a team of four mutated turtles - Leonardo, Donatello, Raphael, and Michelangelo - who fight crime and eat pizza while battling evil forces like Shredder and his foot robot ninjas, as well as aliens and mad scientists. The turtles were trained in the art of ninjutsu by their sensei Splinter and live in the storm sewers of New York City, where they battle petty criminals and attempt to remain isolated from society. TMNT is back in theaters for its 35th anniversary and I couldn't be happier as a millennial dad The Teenage Mutant Ninja Turtles (TMNT) have been my collective identity since childhood Their origin story began as a joke between friends, but they soon became a popular cartoon series Originally appearing in 1984 as an underground comic book from co-creators Kevin Eastman and Peter Laird The turtles were created to be anthropomorphic reptiles with ninja skills They were later joined by April O'Neil, a human reporter who helped them take down the villainous Shredder The film was made on a shoestring budget of $13 million but became a huge success, grossing over $202 million worldwide It was praised for its gritty and imperfect portrayal of street life in New York City The use of handmade animatronic suits added to the film's unique charm The TMNT franchise has undergone many changes since its inception, including various adaptations and spin-offs Despite its evolution, the core message of teamwork and brotherhood remains unchangedThe spirit of the original Teenage Mutant Ninja Turtles film was not about violence, but rather great family-oriented entertainment. According to Barron, he had to persuade Henson to see the value in this approach. After nearly a month of discussion, Henson finally agreed, and his creatures have stood the test of time. The film's enduring success can be attributed to its honesty and nuances, which are still captivating today. Despite some minor imperfections, it has heart, a quality that is difficult to achieve in computer-generated imagery. This helped the film remain relevant and attract new fans. The franchise's box office potential had been dormant since the 1990s, but 2023's TMNT: Mutant Mayhem has revitalized its intergenerational appeal. The original Turtles film succeeded despite some era-specific tropes, which have since been criticized. However, it holds up well compared to modern comic book adaptations. The key to this old-school version of the movie was the filmmakers' willingness to take bold risks without corporate oversight. This is why I consider it suitable for taking my son to see, as he would have enjoyed it at a similar age when I was a fan. Cowabunga!
